## SCANNING RESULTS

All ewes will have been scanned and the results are printed in the catalogue. This in no way guarantees the number of lambs at birth. If any female sheep which is described in the catalogue or at the time of sale as being “scanned in lamb” or in lamb, proves not to have been in lamb at the time of sale and within 7 days after the day of sale the purchaser gives written notice to the auctioneers of his intention to return the animal supported by a veterinary surgeon’s certificate that such sheep has proved not to have been in lamb then the purchaser may return such sheep to the vendor.
