Rickerby's chooses EcoLogicLiving for its renewable energy needs

When agricultural and horticultural machinery supplier Rickerby Ltd decided to install three woodchip boilers to cut heating costs at two of its branches, it decided to go with EcoLogicLiving.

Operating since 1880, Rickerby is a family-owned business with a reputation built on quality products with an excellent parts and service back-up.

The firm chose EcoLogicLiving for several reasons: its proximity to Rickerby, previous projects, the team's knowledge of the renewable sector and a competitive cost.

The process was clear and simple, with a dedicated agent from EcoLogicLiving helping out and advising every step of the way – from positioning of the equipment to the various options for the fuel supply.

Rickerby's annual electricity bill was running to thousands of pounds, and its heating bill was similar, so it decided to use two different technologies: biomass boilers and solar PV panels.

This would take advantage of the government's renewable heat incentive and feed-in-tariff payback schemes.

Having installed the woodchip boilers, the company then looked at reducing its electricity bill.

The Rickerby showroom and warehouses have hundreds of square feet of roof space available, so they looked at the pros and cons of installing PV panels.

Among the points discussed were the orientation of the roof and the required degree of pitch that the panels would need to generate the most power. In the end, a 50kW system was selected as

it represented the greatest return on the investment.

A spokesman for Rickerby said: "Thanks to the success of the biomass boilers and the solar PV panels on the main warehouse and the income they have generated for the business while lowering our carbon footprint at the same time, we would recommend installing these technologies to reduce your energy bills."

Invest now before payments cut

There are different types of biomass boilers, which burn different types of fuel – logs, chip, pellets – and are suitable for different levels of heating.

A typical 221kW boiler system will generate about 290,000kWh per year. With the renewable heat incentive (RHI) and fuel savings income, this could create an income of £545,500 over 20 years.

When solar PV panels are installed, the level of the feed-in-tariff payment is fixed for the next 20 years. Depending on the size of the installation – say a 50kW system – and how much of the electricity generated is used on-site, the total generated over that time can be around £230,000.

ANNAN FLOCK

GK JAMIESON

The Annan Flock is one of the oldest flocks in the country, having been founded in 1973 by the importation of 2 gimmers and the Imported ram, Annan Captain, from the Robert Depernet flock in France.

The influence of the Annan Flock in the breed in the UK over the past 40 years is well documented and many of the top breeding flocks can trace their foundations to Annan. The flock has held many UK sale records over the years and has periodically held world records for top prices for both males and females.

Descendants of the flock include Talbot Northern Light, Annan Jaguar, Nugget, Osprey, Powerline, Royal Gold, Van Gogh, Braveheart and Won O' Won, who's first ten sons at Lanark Premier Sale averaged £4,600.

Showing has always been a passion of the family and the flock has taken Supreme Championships at the Royal Shows no less than ten times. Supporting the breed as producers of good commercial lambs, has always been important to Annan and is born out by their success at Smithfield Fatstock Show with two supreme and one reserve overall title.

In 2001 the flock was sadly lost to Foot and Mouth disease and the search was underway to source Annan bloodlines from those flocks who were thriving through the purchase of Annan females in the past. The previous year, three maternal sisters stood out in the Flock and 98/207 the mother of Annan Jewel was sold to Tom Cornthwaite and she was purchased back as foundation stock. Seventeen of the females in the sale are descended from her.

Since 2001, 98/207 was joined by ewes from Woodmarsh and Colin Pontin and one of the Woodmarsh ewes produced the family of Proctor Farms, Annan 43 when Proctors purchased 15 gimmers in 2009. A maternal sister to Annan 43 made 11,000gns and 207 produced gimmers to 8,500gns. There are six females in the sale related to Annan 43.

This year's top price of 70,000gns can be traced back to Annan bloodlines.

Genetics from the Annan flock have also travelled over the world with semen from an Annan Braveheart son, making the top muscle score record price for semen sold in Canada.

The flock is being reduced as it is compulsory to grow old but not compulsory to grow up and as Keith nears his 21st (born in a leap year) he feels it is time to take it easy and spend more time socialising!! Cheers!

The gimmers have been vaccinated for abortion and are on the Heptavac P + System.

Cut lamb losses – not corners

Heptavac-P Plus is vital in the crucial first few weeks of a lamb's life

It offers proven protection against pasteurella and clostridia – but only if it's used correctly, with the full, recommended 2ml dose for your ewes at the right time.

Heptavac-P *plus*

**Cut corners and you could be counting costs,
not savings.**

Use medicines responsibly. For more information visit www.noah.uk/responsible

Heptavac-P Plus contains antigens for the active immunisation of sheep against seven clostridial species and the most important serotypes of *Mannheimia (Pasteurella) haemolytica* and *Bacterina (Pasteurella) trehalosi*. Legal category **POM-VETS**. **HEALTH AND SAFETY RULES
HARRISON & HETHERINGTON LIMITED
NOTICE TO ALL VISITORS AND TRADERS
PLEASE READ AND OBSERVE
THE FOLLOWING**

All visitors and traders on site will be responsible for ensuring that they and their employees or sub-contractors engaged by them comply with all legal requirements, including the Health and Safety At Work etc., Act 1974, The Management of Health and Safety At Work Regulations, The Provision And Use of Work Equipment Regulations, etc.

All visitors and traders will be responsible for ensuring that their operations in no way affect the integrity of the company or its fire, safety or security arrangements and in no way compromise the health and safety and welfare of other visitors to and or employees of Harrison & Hetherington.

Although it is the visitors and traders responsibility to ensure that plant, equipment and systems in work are safe, Harrison & Hetherington Limited reserve the right to ask any visitor or trader to leave the market for any breaches in the Health and Safety Rules and/or Regulations.

Vendors must inform Harrison & Hetherington Limited of any livestock due to attend the market whose temperament, behaviour or condition may call for additional precautions for its safe handling.

When loading or unloading livestock handlers must ensure that the dock and vehicle gates are securely fixed so as to prevent the escape of animals.

Traders are responsible for providing and maintaining suitable livestock handling equipment. They should ensure that livestock handlers are fit, experienced in livestock handling and familiar with the livestock in their charge.

Children must not be permitted in any area where they may be at risk from livestock or machinery.

In the case of bulls, during the period when the show/sale is open to visitors, bulls in stalls or pens should not be left unattended. If the handler is temporarily absent, arrangements should be made with another vendor, steward or member of Harrison & Hetherington staff to oversee the bull until the handler returns.

Handling of Livestock at shows and sales: Harrison & Hetherington Limited recommend that an adult person should accompany any junior person during the showing/sale of livestock in the ring and reserves the right to intervene at any point if, in the company's opinion, the person showing the livestock is at risk in undertaking that activity.

Passageways must be kept clear at all times during the auction sale. **PLEASE DO NOT STAND IN THE SALE RING ENTRANCE AND EXIT PASSAGES.**

The auction ring man escapes and refuges must be kept clear at all times.

All portable electrical equipment supplied and/or used by visitors and traders must be safe and fit for the purpose and should have a valid portable appliance test certificate.

AUCTIONEER'S TERMS & CONDITIONS OF SALE

(Incorporating the Auctioneer's
Terms and Conditions)

1. The biddings to be regulated by the Auctioneers and the highest bidder, subject to the Vendor's reserve (if any), to be the purchaser. No bid shall be retracted and if any dispute should arise between two or more bidders, the Lot in dispute to be put up again and resold, or the Auctioneers may determine the dispute at their own discretion and their decision shall be final. The Auctioneers reserve the right to refuse the bid of any person without being called upon to give reason for such action.
2. The Purchaser to give his full name and dwelling place and pay for all Lots purchased immediately at the close of sale. No Lot or Lots shall be removed from the sale premises until paid for and a pass-out slip obtained from the Auctioneer's clerk but each and every Lot shall immediately at the fall of the hammer be considered as delivered and be and remain in every respect at the absolute risk and expense of the respective purchaser or purchasers thereof and shall be removed from the sale premises at the purchaser's expense. The right of property shall not pass until the full purchase price is paid.
3. Purchasers paying by cheque must be prepared, if required, to produce a banker's reference. As a result of the Money Laundering Regulations (2003) the auctioneers are unable to accept cash payments in excess of nine thousand pounds sterling for any any single or linked purchase transaction.
4. All statements in the catalogue, or made by the Auctioneers at the time of sale, also the correct identification of the animals, are the entire responsibility of the Vendors. The Auctioneers take no personal responsibility for the correctness of such statements or identities.
5. All statements in the catalogue, or any made by the Auctioneers at the time of sale relating to any veterinary or other tests are to be taken as statements of fact only. No such statements shall guarantee the purchaser of any animal against loss arising from the subsequent reaction of such animal to any test administered after the sale and the Vendors shall not be liable in any way should this occur.
6. All stock is sold subject to the Conditions of Sale recommended for use at markets by the Livestock Auctioneers' Markets Committee for England and Wales except in so far as these conflict with any Special Conditions applicable to the sale of pedigree stock, when the latter Conditions shall prevail.
7. Neither the Vendors nor the Auctioneers will be responsible for any accident or injury to persons or property, through fire or any other cause whatsoever, nor for any damage by animals prior to, during or after the sale.
8. No undertaking by the Auctioneers or their servants to take charge of any Lot or Lots after the sale or to forward them to their destination shall be held to impose upon the Auctioneers any legal obligation or vitiate any of these Conditions.
9. Inasmuch as the Auctioneers act as agents for a disclosed principal they shall not be considered personally responsible for any default on the part of either purchasers or Vendors and the remedy shall be against them only and not against the Auctioneers.
10. If these conditions are unfulfilled, the Vendors or Auctioneers shall have the power to resell the Lots, retaining any surplus and charging any deficiency and expense to the defaulter.
11. You have a right to know how we will use the information you have provided to us. We may share the information with other members of our group and may make this information available to relevant media groups and other interested parties on request. We and other members of the group may contact you by telephone, e-mail, post or fax to inform you of products or services available.
