## CONDITIONS OF SALE

All sheep will be sold under the Auspices of the Society and the Conditions of sale relevant to individual sales as shown below. These can be viewed at ... [texel.uk/our-society/](http://texel.uk/our-society/) Auctioneers also display copies of the Conditions of sale within the auction house.

English National - LAA National Conditions of Sale (Livestock Auctioneers Association).  
Northern Irish National – Ballymena Conditions of Sale, J.A. McClelland & Sons (Auctioneers) Limited

Scottish National – IAAS – Institute of Auctioneers and Appraisers in Scotland

Welsh National – LAA National Conditions of Sale (Livestock Auctioneers Association)

Neck tags supplied by the Society must be worn by all sheep **PRIOR** to the inspection.

Individual animal ID numbers on ear tags must match the ID number displayed in the sales catalogue and substitute catalogue.

## AUCTION MART RULES FOR VENDORS

The Shepherd in charge must bring their respective lots forward, take them to and from the Sale Ring, attend until delivered and assist in trucking if required as the Auctioneers will be responsible only for what is delivered to the purchaser. Should the Shepherd not be in attendance at the time his lots fall to be sold, it will be passed over and taken at the end of Sale.

All Stock will proceed in the order of the Catalogue and all lots not previously entered will be sold only when the list is finished.

All purchases to be settled for and taken delivery of on the Day of Sale.

No stock can be removed without a Pass.

Purchasers should see that their Stock is correct before leaving the gates, as no deduction can be made afterwards.

No Private Sales prior to the Stock being offered by Auction will be allowed or recognised by the Salesman.

The usual commission must be paid on consignments sold privately within this Market.

Every assistance in loading or keeping overnight, for the accommodation only of Buyers, will be arranged, as far as possible, by the Auctioneers, who will not be responsible for loss or damage incurred thereby.

**Please note**, ram dockets will no longer be available at sales. A proof of purchase will still be needed to transfer/register a ram into your flock. This can be either a handwritten ram docket or an invoice with the complete animal number including flock code.

**Also** please note, registration certificates are only available on request and will no longer be automatically printed and posted. Certificates will need to be requested prior to selling your registered sheep, to be given to the purchaser at the time of the sale. These will be used as proof of purchase when transferring the sheep into the new owner's flock.

From 1<sup>st</sup> April 2019 the Texel Sheep Society has been providing performance recording services directly to our membership. AHDB-Signet introduced the new National Terminal Sire (NTS) Evaluation this year for all terminal sires breeds within the UK. The Society has agreed to support this new evaluation by providing Pedigree Texel data and so NTS forms the base evaluation for British Texel flocks.

When looking at rams EBVs in the catalogue this year please remember that the introduction of the new evaluation has caused some changes to the indexes and figures from what they have been previously.

- **The Terminal Sire Index and Traits have now been rebased**  
*EBVs and indexes have been rebased to the average Texel animal in 2010. You will find that all animals index will have 'fallen' in number. With Top 10% animals having an index of **210** compared with the 361 it was before the change.*
- **Meat traits are now based on a fixed weight rather than age**  
*Animals now have their muscle/fat EBVs predicted for a fixed carcass weight rather than at a fixed age.*

---

When buying a ram, buyers should use the breed benchmark to identify where an animals Estimated Breeding Values (EBVs) rank within the breed.

The aim of EBVs are to allow buyers to see how much of an animal's performance is due to its breeding (genetics) and how much has been influenced by the environment that they have been kept in – management, feeding, farm location, housing etc

An animal will pass on half of its genetic merit to its offspring.  
*eg, if Ram A has a Scan Weight of +3.33 then his progeny at scanning will be over 1.5kg heavier than average*

# British Texel Breed Benchmark 2019

Remember EBVs and indexes have been rebased are now expressed relative to average Texel Sheep in 2010.
