

CONDITIONS OF SALE

All sheep will be sold under the Auspices of the Society and the Conditions of sale relevant to individual sales as shown below. These can be viewed at ... www.texel.co.uk/societyrules Auctioneers also display copies of the Conditions of sale within the auction house.

English National - LAA National Conditions of Sale (Livestock Auctioneers Association).

Northern Irish National – Ballymena Conditions of Sale, J.A. Mc Clelland & Sons (Auctioneers) Limited

Scottish National – IAAS – Institute of Auctioneers and Appraisers in Scotland Welsh National – LAA

National Conditions of Sale (Livestock Auctioneers Association) Neck tags supplied by the Society must be worn by all sheep **PRIOR** to the inspection. Individual animal ID numbers on ear tags must match the ID number displayed in the sales catalogue and substitute catalogue.

DISCLAIMER

While every effort is made to ensure accuracy of information contained within the Texel Sheep Society Sale Catalogues, the Pedigree information is supplied by the Breeder to the Society and to their best knowledge and belief the information contained therein is true and correct. No responsibility can be accepted for any errors or omissions or any reliance on use of the information to readers

To join the Texel Sheep Society, visit texel.uk/our-society/membership-application/ complete the online form and submit.

AUCTION MART RULES FOR VENDORS

The Shepherd in charge must bring their respective lots forward, take them to and from the Sale Ring, attend until delivered and assist in trucking if required as the Auctioneers will be responsible only for what is delivered to the purchaser. Should the Shepherd not be in attendance at the time his lots fall to be sold, it will be passed over and taken at the end of Sale.

All Stock will proceed in the order of the Catalogue and all lots not previously entered will be sold only when the list is finished.

All purchases to be settled for and taken delivery of on the Day of Sale.

No stock can be removed without a Pass.

Purchasers should see that their Stock is correct before leaving the gates, as no deduction can be made afterwards.

No Private Sales prior to the Stock being offered by Auction will be allowed or recognised by the Salesman.

The usual commission must be paid on consignments sold privately within this Market.

Every assistance in loading or keeping overnight, for the accommodation only of Buyers, will be arranged, as far as possible, by the Auctioneers, who will not be responsible for loss or damage incurred thereby.

From 1st April 2019 the Texel Sheep Society has been providing performance recording services directly to our membership. AHDB-Signet introduced the new National Terminal Sire (NTS) Evaluation this year for all terminal sires breeds within the UK. The Society has agreed to support this new evaluation by providing Pedigree Texel data and so NTS forms the base evaluation for British Texel flocks.

When looking at rams EBVs in the catalogue this year please remember that the introduction of the new evaluation has caused some changes to the indexes and figures from what they have been previously.

- **The Terminal Sire Index and Traits have now been rebased**
*EBVs and indexes have been rebased to the average Texel animal in 2010. You will find that all animals index will have 'fallen' in number. With Top 10% animals having an index of **210** compared with the 361 it was before the change.*
- **Meat traits are now based on a fixed weight rather than age**
Animals now have their muscle/fat EBVs predicted for a fixed carcass weight rather than at a fixed age.

When buying a ram, buyers should use the breed benchmark to identify where an animals Estimated Breeding Values (EBVs) rank within the breed.

The aim of EBVs are to allow buyers to see how much of an animal's performance is due to its breeding (genetics) and how much has been influenced by the environment that they have been kept in – management, feeding, farm location, housing etc

An animal will pass on half of its genetic merit to its offspring.
eg, if Ram A has a Scan Weight of +3.33 then his progeny at scanning will be over 1.5kg heavier than average

British Texel Breed Benchmark 2019

Trait	Average	Top 25%	Top 10%
Terminal Sire Index <i>Combines traits to allow breeders to select rams who will breed more profitable slaughter lambs</i>	150	182	210
Scan Weight (kg) <i>Breeding Potential for growth, measured at scanning</i> <i>Rams with higher EBVs produce lambs that are heavier at time of ultrasound scanning</i>	3.33	4.94	6.39
Muscle Depth (mm) <i>The amount of muscle present across the loin at a fixed carcass weight. Can be used to asses overall lean meat yield.</i>	-0.07	0.37	0.76
Fat Depth (mm) <i>The amount of fat present on a carcass at a fixed weight. Negative values indicate animals who will produce leaner animals, Positive values indicate fatter carcasses</i>	-0.28	-0.06	0.13
CT Gigot Muscularity (mm) <i>Breeding potential for gigot shape</i>	0.12	0.67	1.16
Litter Size <i>Number of lambs born to increase prolificacy</i>	0.05	0.08	0.11
Eight Week Weight (kg) <i>Breeding potential for growth to 8 weeks of age</i>	1.3	1.93	2.51
Maternal Ability	-0.01	0.2	0.39

<i>The ewe's maternal ability – Milk production and maternal care – expressed by lambs performance to 8 weeks</i>			
---	--	--	--

Remember EBVs and indexes have been rebased are now expressed relative to average Texel sheep in 2010
