While the last 18 months have delivered huge amounts of uncertainty around many aspects of day to day and indeed business, it has been great to see the sheep industry thrive in what could have been difficult times.

There is no doubt that everyone in the sector has welcomed the better returns being achieved for all classes of stock from store lambs to breeding sheep and everything in between.

Lamb prices, in particular, have been better than many can ever remember them being, particularly through the mid-summer period and the demand for well fleshed lambs with weight has been seemingly unstoppable.

As ever, Texels have been at the forefront of the prime lamb trade, with buyers clearly appreciating the high levels of lean meat the breed can consistently deliver.

In turbulent times it is important to know there are some things you can rely on. In the sheep farming world one of the most reliable things is the performance of Texels.

From the farmer's perspective this high demand for Texel-sired lambs results in added value from using Texel rams which few breeds can come close to matching.

This ability to add value is why the breed remains the most popular sire in the UK and among the most favoured sires for breeding female replacements too.

Importantly, Texel sired lambs enable farmers to reduce their business risk by delivering prime lambs which are always in demand.

Their quick growth, great conformation and carcass balance make Texels the prime choice of domestic processors and retailers as well as the export trade.

The Society's texelplus genetic improvement service underpins the improvements being made by breeders as they seek to develop sheep best suited to the modern sheep industry.

It is the great strides made in key traits, such as lean meat yield and growth rate which have helped make Texels the success they are today as both a terminal and maternal breed.

If you are not a member of the Society, but would like to start your own pedigree flock, please contact the Society office 02476 696629 or visit the Society website [texel.uk](http://texel.uk) for further information to apply to be a member.

Breeders wanting to make use of the Society's genetic improvement services Texelplus, should also contact the Society office in the first instance.

Neck tags supplied by the Society must be worn by all sheep for sale prior to the inspection.

Individual animal ID numbers on ear tags must match the ID number displayed in the sales catalogue and substitute catalogue.

### DISCLAIMER

The pedigree, performance, genomic information stored by the Society in the iTexel database and published on Society pedigree certificates, reports and general publications is as supplied by, or on behalf of the breeder. The responsibility for the accuracy of the information, therefore, rests solely with the breeder and not with the British Texel Sheep Society Ltd (BTSS).

Health information and footnotes that are stored in iTexel and published in sales catalogues produced by the Society, is supplied by or on behalf of the vendor. The responsibility for the accuracy of the information, therefore, rests solely with the vendor and not with the British Texel Sheep Society Ltd (BTSS).

Performance data and breeding values change over time as new data becomes available. Whilst every effort is made to ensure accuracy of the information contained in Society reports and publications, no responsibility can be accepted by the Society for any errors or any reliance on the use of information. No warranty is given in respect thereof by the BTSS and, to the maximum extent permitted by law, the BTSS have no liability for any loss, damage or injury howsoever caused (including that caused by negligence) or suffered directly or indirectly in relation to information and opinions contained or omitted from BTSS publications.

### SCRAPIE MONITORING SCHEME (SMS)

This event will be operated as a 'un-segregated' sale therefore any sheep from SMS flocks will need to meet the SMS rules in regard to ARR/ARR scrapie genotype certification. Members are reminded that if they bring animals to this event which do not have the certification, they will be unable to return with them without risking their flock health status. This is the responsibility of the members.

## AUCTION MART RULES FOR VENDORS

The shepherd in charge must bring their respective lots forward, take them to and from the sale ring, attend until delivered and assist in trucking if required as the auctioneers will be responsible only for what is delivered to the purchaser.

Should the shepherd not be in attendance at the time his lots fall to be sold, it will be passed over and taken at the end of sale.

All stock will proceed in the order of the catalogue and all lots not previously entered will be sold only when the list is finished.

All purchases to be settled for and taken delivery of on the day of sale.

No stock can be removed without a pass.

Purchasers should see that their stock is correct before leaving the gates, as no deduction can be made afterwards.

No private sales prior to the Stock being offered by auction will be allowed or recognised by the salesman.

The usual commission must be paid on consignments sold privately within this market.

Every assistance in loading or keeping overnight, for the accommodation only of buyers, will be arranged, as far as possible, by the auctioneers, who will not be responsible for loss or damage incurred thereby.

The aim of EBVs is to allow buyers to see how much of an animal's performance is due to its breeding (genetics) and how much has been influenced by the environment that they have been kept in – management, feeding, farm location, housing etc

An animal will pass on half of its genetic merit to its offspring.

*e.g., if Ram A has a Scan Weight of +3.33 then his progeny at scanning will be over 1.5kg heavier than average*

# WIN A WEIGH CRATE

— WORTH MORE THAN £700 —

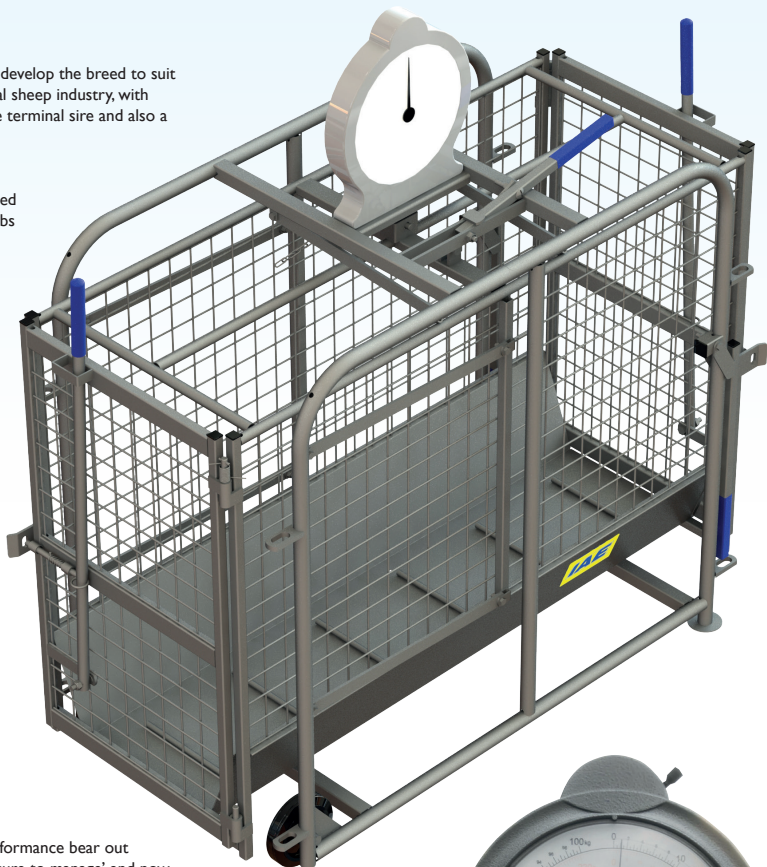

Texel breeders continue to develop the breed to suit the needs of the commercial sheep industry, with Texels the UK's number one terminal sire and also a popular maternal breed.

Recent years have seen performance within the breed excel even further, with lambs recorded with the Texel Sheep Society's texelplus genetic improvement service now 4.5kg heavier at 20 weeks than lambs of the same age in 2011.

In addition, texelplus recorded lambs also have 0.25mm more loin muscle depth than lambs in 2011 and are also 1.8kg heavier at eight weeks old than in 2011.

Today just shy of 34% of pedigree Texel lambs are sired by texelplus lambs, helping disseminate the improvement in performance throughout the breed and, through commercial ram sales, the wider UK sheep flock.

These improvements in performance bear out the well know mantra 'measure to manage' and now the Texel Sheep Society is offering you a chance to enhance your flock management with the chance to win a weigh crate worth more than £700.

To enter simply go to the Texel website at
