Copies are available from the Auctioneers and will be displayed at the sale. All the sheep will be sold in guineas (105 pence) and strictly in catalogue order.

SCANNING RESULTS All ewes will have been scanned and results will be available on sale day. This in no way guarantees the number of lambs at birth. If any female sheep which is described in the catalogue or at the time of sale as being "scanned in lamb" or in lamb proves not to have been in lamb at the sale and within 7 days after the day of sale the Purchaser gives written notice to the Auctioneers of his intention to return the animal supported by a Veterinary Surgeon's certificate that such sheep has proved not to have been in lamb then the purchaser may return such sheep to the Vendor.

PEDIGREE CERTIFICATES & SCRAPIE GENOTYPE CERTIFICATES Pedigree Certificates will be available at the Auction Mart Office on the day of sale, together with Scrapie Genotype Certificates. All Texel sheep in the sale are Full Pedigree Registered.

The aim of EBVs is to allow buyers to see how much of an animal's performance is due to its breeding (genetics) and how much has been influenced by the environment that they have been kept in – management, feeding, farm location, housing etc

An animal will pass on half of its genetic merit to its offspring.

e.g., if Ram A has a Scan Weight of +3.33 then his progeny at scanning will be over 1.5kg heavier than average

AMAN FLOCK

FOREWORD

We're delighted to be part of this exciting new sale at the spiritual home of Welsh agriculture in Builth.

The flock was established in 1987. Initially shown with some success, we left the showring in 1998. We have concentrated since on flock competitions, winning both South Wales and Dyfed Club competitions, and the All Wales in 2018.

We had as strong a crop of ewe lambs as we've had for some time in 2020 in terms of numbers and quality, dominated by sires Midcombe Brigadier and Knap Angus Ogg. This means that we've been able to enter a fine selection of shapely gimmers to this sale.

We look forward to seeing you. Nadolig Llawen.

CLAYBURY TEXELS

FOREWORD

Claybury Texels was established back in 1991 with the purchase of 2 In Lamb ewes with the primary aim to produce top quality commercial rams to sell at the local club sales as well as privately.

We never dreamt that back in 2002 we would break the ram lamb record where we sold Claybury Istabraq for 88,000gns and more latterly the ewe lamb record of 8,500gns back in 2008. Both of these records have since been broken.

We have had recent success with the sale of Claybury Basic Instinct in 2018 for 30,000gns at Carlisle and more recently Claybury Dunkirk for 34,000gns in 2020 at Lanark Premier sale.

We try and run the sheep as commercially as possible on a grass based system with forage crops used over winter to supplement the ewe lambs and x bred ewes.

We are active members of the recording scheme where all lambs are scanned at 12 weeks old.

We are excited to offer these females for sale all of which have excellent pedigree's with some being full sisters and same family lines as the top priced rams mentioned above. We have also offered Flock ewes of which some have been flushed successfully.

We are confident that these females on offer will offer something for everyone and should make a useful genetic contribution to any breeders and can be an outstanding base for any new flocks within the Texel breed.

Flock Health Status:

We have always practised a preventative health plan.

- On the Hep P system (due for another booster 4 weeks prior to lambing)
- Scrapie Monitored
- MV Accredited
- Lambs Scabi-Vac 48 hrs after birth
- Ewes Fluked and Wormed 14th September 2020 prior to tugging
- Ewes received Mineral Bolus prior to tugging

I wish all the prospective purchasers the very best of luck with the purchase of any Claybury Stock.

Look forward to seeing you at the sale.

Best Wishes

James Draper
