Think Big.

Our products were the first of their kind.

Other companies have tried to imitate them.

The farmer doesn't find lumps in our fine powders.

Nobody needs to shake our liquids to mix.

In fact, some people who use our products don't even think

34p per application is anything to shout about.

Or using one product instead of three - for cattle, sheep and goats.

Or that the effects can last for 2-3 months afterward.

Or supplementing over 650 animals with just 1 bottle.

That's because once you get

used to using our products, you don't even think about them anymore.

Except when you finish your champion bull. Or show your exceptional sheep. Or sell your full stock. Or trade in your old feed supplement for a new one.

Think it over.

An animal will pass on half of its genetic merit to its offspring.

e.g., if Ram A has a Scan Weight of +3.33 then his progeny at scanning will be over 1.5kg heavier than average
