## CONDITIONS OF SALE

All sheep will be sold under the Auspices of the Texel Sheep Society and the Conditions of sale relevant to individual sales as shown below. These can be viewed at [www.texel.co.uk/societyrules](http://www.texel.co.uk/societyrules)

Auctioneers also display copies of the Conditions of sale within the auction house.

### DISCLAIMER

The pedigree, performance, genomic information stored by the Society in the iTexel database and published on society pedigree certificates, reports and general publications is as supplied by, or on behalf of the breeder. The responsibility for the accuracy of the information therefore rests solely with the breeder and not with the British Texel Sheep Society Ltd (BTSS).

Health information and footnotes that are stored in iTexel and published in sales catalogues produced by the society, is supplied by or on behalf of the vendor. The responsibility for the accuracy of the information therefore rests solely with the vendor and not with the British Texel Sheep Society Ltd (BTSS).

Performance data and breeding values change over time as new data becomes available.

Whilst every effort is made to ensure accuracy of the information contained in society reports and publications, no responsibility can be accepted by the Society for any errors or any reliance on the use of information. No warranty is given in respect thereof by the BTSS and, to the maximum extent permitted by law, the BTSS have no liability for any loss, damage or injury howsoever caused (including that caused by negligence) or suffered directly or indirectly in relation to information and opinions contained or omitted from BTSS publications.

The Texel Sheep Society provides performance recording services directly to its membership and continues to support the National Terminal Sire Evaluation.

Traits Available	Average	Top 25%	Top 10%
<b>Litter size</b> Indicates prolificacy, number of lambs born alive/dead	0.06	0.09	0.12
<b>Eight-week weight (kg)</b> Growth rate to eight-weeks of age (measured between 42-84 days)	1.72	2.32	2.86
<b>Maternal ability</b> Milk production and the ability to rear lambs	0.05	0.23	0.40
<b>Scan weight (kg)</b> Growth rate to 35-40kg, measured at ultrasound scanning	4.41	5.93	7.29
<b>Muscle depth (mm)</b> Carcase muscling across the loin at 35-40kg, measured by a technician	-0.06	0.37	0.75
<b>Fat depth (mm)</b> Carcase leanness across the loin at 35-40kg, measured by a technician	-0.38	-0.18	-0.01
<b>Gigot muscularity (mm)</b> Thickness of muscle around the gigot, indicating shape; measured by a CT Scanner	0.07	0.38	0.66
<b>Terminal Index</b> <b>Profitable slaughter lambs</b>	<b>167</b>	<b>197</b>	<b>224</b>

The aim of EBVs is to allow buyers to see how much of an animal's performance is due to its breeding (genetics) and how much has been influenced by the environment that they have been kept in – management, feeding, farm location, housing etc

An animal will pass on half of its genetic merit to its offspring.

e.g., if Ram A has a Scan Weight EBV of +3.33 then his progeny at scanning will be over 1.5kg heavier than average

## Inbreeding within the national pedigree Texel flock

Inbreeding can be defined as the mating of related individuals, or of individuals with shared ancestors. A balance needs to be maintained between selecting animals to optimise rates of genetic gain and minimise levels of inbreeding.

Increasing levels of inbreeding can result in inbreeding depression, where performance can suffer. It can be argued that any animal is only one mating away from being outbred.

Each animal's inbreeding coefficient value is now displayed in the sales catalogue. The lower the level of inbreeding the better; a value of 7 % or below is regarded as an acceptable level of inbreeding within a breeding programme.

### Use the Mating Predictor Tool now on iTexel

Use the mating predictor on iTexel to manage levels of inbreeding within your flock. You cannot assess ewe/ram combinations by eye. The Mating Predictor estimates the inbreeding value of the offspring from a particular pairing.

### The predictor is available on your smart phone as well as desktop

To check the ram(s) you're interested in purchasing and see how they combine with your ewes:

1. Login to iTexel, click Mating Predictor
2. Choose 'New Combination' to select a Sire and Ewes
3. Click 'View Results'
4. A summary will appear with the number in brackets displaying the predicted inbreeding coefficient. A coefficient below 7 is desirable
