Where possible, assistance will be given in forwarding
animals to their destination, but

INSTRUCTIONS MUST BE LEFT IN WRITING AT OUR OFFICE

Invoices will be raised in **pounds sterling**. We request that payment is made to us in pounds sterling by cheque/bankers draft, debit/credit card on the day of sale.

Purchasers from outside the United Kingdom

*N.B a 3% surcharge will be added to all foreign currency transactions (including Euros).
Exchange rate applied at rate on day of sale.*

The Texel breed's quick growth, excellent conformation and ability to adapt to a wide variety of farming systems and environments have made it the number one sire breed in the country and also a top choice maternal breed too.

Sheep farmers across the UK have long recognised this and the continued dominance of Texels in the UK sheep sector is testament to the higher demand and better returns enjoyed by Texel sired stock of all types.

Reducing risk is key to any business and none more so than sheep farming, particularly at a time of rising input costs.

Fertiliser, fuel and feed prices have all escalated in the last 12 months due to a number of factors and inflationary pressures across all inputs have focussed minds on simplified systems with reduced risk exposure.

Without a doubt the best way to reduce risk is to maximise your market. In simple terms the greater the demand for your product the lower the risk and higher the chances of achieving good sales values.

Whether you are selling prime lambs, breeding ewes or store lambs, Texel crosses continually earn premium prices week in, week out. No other breed can match the sales performance of Texel-sired stock when sold either liveweight or deadweight.

Since the breed's arrival in the UK more than 45 years ago Texel breeders have dedicated themselves to ensuring the breed suits the needs of sheep farmers, processors and retailers.

The Society's **texelplus** genetic improvement service underpins the improvements being made by breeders as they seek to develop sheep best suited to the modern sheep industry. Search out the performance figures in this catalogue.

It is the great strides made in key traits, such as meat yield and growth rate which have helped make Texels the success they are today as both a terminal and maternal breed.

The Society is grateful to the sale's sponsors for their support of the breed and Society members.

If you are not a member of the Society, but would like to start your own pedigree flock, please contact the Society office 02476 696629 or visit the Society website texel.uk for further information to apply to be a member.

Breeders wanting to make use of the Society's genetic improvement services **texelplus**, should also contact the Society office in the first instance.

John Yates

Show & Sale Programme

SCOTTISH NATIONAL SHOW & SALE - LANARK

Bye Law 11.6

No dressing, trimming, clipping or excessive use of dips on the fleeces of sheep will be permitted. No artificial whitening on any part of the sheep is permitted. An inspector may be present at the sale or show, they have the authority to disqualify any sheep, which in their opinion, are below a minimum standard with regard to breed type or are found to be contravening the Society Byelaws, right up to the point of sale. The decision of the inspector shall be final and failure to accept the inspector's decision will result in the entire consignment or show team being rejected.

Wednesday 24th August 2022

08.00 - 12.30 - Arrival of sheep and inspection **prior** to penning. Any sheep not inspected by 12.30 will not be eligible to be shown or sold.

13.30 - Judging of all classes by Myfyr Aled Evans - Rhaeadr flock
Presentation of all prizes will take place after each class. One entry per class, per vendor and sheep may only be shown in one class (Other than the group of three).

Class 1: Shearling Ewe

Class 2: Novice Flock Ram Lamb

(Any flocks founded after 1st January 2017 are eligible to exhibit as shown on page 8).

Class 3: Open Ram Lamb

(Flocks showing in Classes 3 & 5, (Novice & YDP) cannot show in the Open Ram Lamb class).

Class 4: YDP Ram Lamb

*(Eligible for entry by members aged **30** and under with flocks registered **in their own name & shown by the flock owner** as on the Society's database at close of entry, Thursday 28th July and on page 9).*

Class 5: **texelplus** Ram Lamb

(Restricted to Ram Lambs that have their Terminal Sire Index published in this catalogue and are within the top 10% (>224) of the breed benchmark.)

Class 6: Group of Three Ram Lambs bred by exhibitor (non-Championship)

18.00 Chairman's welcome followed by Sale of Shearling Ewes

Thursday 25th August 2022

10.00 - Sale of Ram Lambs

Acknowledgements

The Texel Sheep Society acknowledges with thanks the Show Judges, Stewards, Auctioneers and Exhibitors, along with the generous support of our Sponsors.

**Register
your new
stock rams
now.**

DNA kits can be collected and returned to Society staff on the day of the sale.

Inbreeding within the national pedigree Texel flock

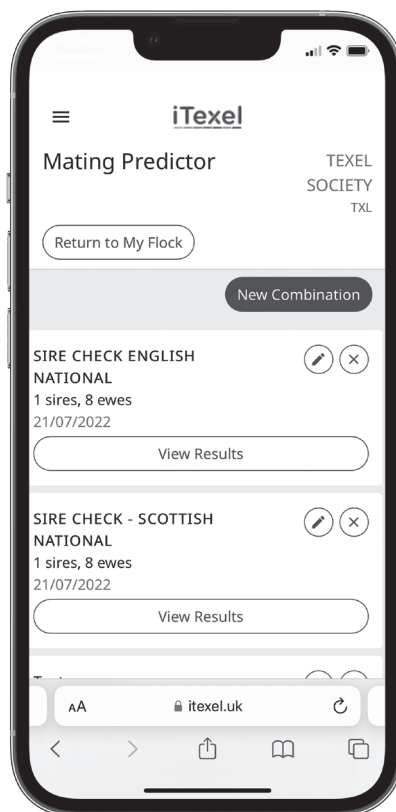

Use the Mating Predictor Tool now on iTexel

Members are encouraged to use the mating predictor on iTexel to manage levels of inbreeding within their flocks. You cannot assess ewe/ram combinations by eye. The Mating Predictor estimates the inbreeding value of the offspring from a particular pairing.

The predictor is available on your smart phone as well as desktop

To check the ram(s) you're interested in purchasing and see how they combine with your ewes:

1. Login to iTexel, click Mating Predictor
2. Choose 'New Combination' to select a Sire and Ewes
3. Click 'View Results'
4. A summary will appear with the number in brackets displaying the predicted inbreeding coefficient. A coefficient below 7 is desirable

Inbreeding can be defined as the mating of related individuals, or of individuals with shared ancestors. A balance needs to be maintained between selecting animals to optimise rates of genetic gain and minimise levels of inbreeding.

Increasing levels of inbreeding can result in inbreeding depression, where performance can suffer. It can be argued that any animal is only one mating away from being outbred.

Each animal's inbreeding coefficient value is now displayed in the sales catalogue. The lower the level of inbreeding the better; a value of 7 % or below is regarded as an acceptable level of inbreeding within a breeding programme.

Prize fund of £830

Note: prize funds will be made by BACS directly to members bank accounts.

CHAMPIONSHIP & TROPHY WINNERS

2022 Supreme Champion	
2021 Winner	Ryan Bradley BYK2100399 – Bradleys Executioner
2022 Reserve Champion	
2021 Winner	Mr Gordon Gray GGH2111300 – Ettrick Earthquake

iTexel

Online transfers are now available on iTexel for all registered animals.

Use this to transfer fully registered animals into your flock (approval may be required from the vendor).

This removes the need to send a proof of purchase to the office.

Birth notified males cannot be registered or transferred until a DNA sample has been received by the Society.

Conditions Of Sale

All sheep will be sold under the Auspices of the Society and the conditions of sale relevant to individual sales as shown below. These can be viewed at www.texel.uk/societyrules

SCAN HERE

Auctioneers also display copies of the conditions of sale within the market.

Neck tags supplied by the Society must be worn by all sheep for sale prior to the inspection.

Individual animal ID numbers on ear tags must match the ID number displayed in the sales catalogue and substitute catalogue.

DISCLAIMER

The pedigree, performance, genomic information stored by the Society in the iTexel database and published on Society pedigree certificates, reports and general publications is as supplied by, or on behalf of the breeder. The responsibility for the accuracy of the information, therefore, rests solely with the breeder and not with the British Texel Sheep Society Ltd (BTSS).

Health information and footnotes that are stored in iTexel and published in sales catalogues produced by the Society, is supplied by or on behalf of the vendor. The responsibility for the accuracy of the information, therefore, rests solely with the vendor and not with the British Texel Sheep Society Ltd (BTSS).

Performance data and breeding values change over time as new data becomes available. Whilst every effort is made to ensure accuracy of the information contained in Society reports and publications, no responsibility can be accepted by the Society for any errors or any reliance on the use of information. No warranty is given in respect thereof by the BTSS and, to the maximum extent permitted by law, the BTSS have no liability for any loss, damage or injury howsoever caused (including that caused by negligence) or suffered directly or indirectly in relation to information and opinions contained or omitted from BTSS publications.

SCRAPIE MONITORING SCHEME (SMS)

This event will be operated as a 'un-segregated' sale therefore any sheep from SMS flocks will need to meet the SMS rules in regard to ARR/ARR scrapie genotype certification. Members are reminded that if they bring animals to this event which do not have the certification, they will be unable to return with them without risking their flock health status. This is the responsibility of the members.

AUCTION MART RULES FOR VENDORS

The shepherd in charge must bring their respective lots forward, take them to and from the sale ring, attend until delivered and assist in trucking if required as the auctioneers will be responsible only for what is delivered to the purchaser.

Should the shepherd not be in attendance at the time his lots fall to be sold, it will be passed over and taken at the end of sale.

All stock will proceed in the order of the catalogue and all lots not previously entered will be sold only when the list is finished.

All purchases to be settled for and taken delivery of on the day of sale.

No stock can be removed without a pass.

Purchasers should see that their stock is correct before leaving the gates, as no deduction can be made afterwards.

No private sales prior to the Stock being offered by auction will be allowed or recognised by the salesman.

The usual commission must be paid on consignments sold privately within this market.

Every assistance in loading or keeping overnight, for the accommodation only of buyers, will be arranged, as far as possible, by the auctioneers, who will not be responsible for loss or damage incurred thereby.

SCOTTISH NATIONAL MINIMUM SELLING PRICE	Ram Lambs	Shearling Rams	Shearling Ewes
	300gns	300gns	300gns

texelplus

adding value

The Texel Sheep Society provides performance recording services directly to its membership and continues to support the National Terminal Sire Evaluation.

Traits Available	Average	Top 25%	Top 10%
Litter size Indicates prolificacy, number of lambs born alive/dead	0.06	0.09	0.12
Eight-week weight (kg) Growth rate to eight-weeks of age (measured between 42-84 days)	1.72	2.32	2.86
Maternal ability Milk production and the ability to rear lambs	0.05	0.23	0.40
Scan weight (kg) Growth rate to 35-40kg, measured at ultrasound scanning	4.41	5.93	7.29
Muscle depth (mm) Carcase muscling across the loin at 35-40kg, measured by a technician	-0.06	0.37	0.75
Fat depth (mm) Carcase leanness across the loin at 35-40kg, measured by a technician	-0.38	-0.18	-0.01
Gigot muscularity (mm) Thickness of muscle around the gigot, indicating shape; measured by a CT Scanner	0.07	0.38	0.66
Terminal Index Profitable slaughter lambs	167	197	224

The aim of EBVs is to allow buyers to see how much of an animal's performance is due to its breeding (genetics) and how much has been influenced by the environment that they have been kept in – management, feeding, farm location, housing etc

An animal will pass on half of its genetic merit to its offspring.

e.g., if Ram A has a Scan Weight EBV of +3.33 then his progeny at scanning will be over 1.5kg heavier than average

WIN AN EID READER WORTH MORE THAN £950.

Texels continue to dominate the GB sheep industry, accounting for 27.2% of all rams used in the GB national flock, according to the 2020 GB Sheep Breeds Survey.

Moreover, 26% of all ewes in GB were mated to Texel rams and, tellingly, the next nearest breed accounted for less than a third as many rams at just 8.7% of all rams used and was mated to just 8% of the national flock.

The continued dominance of the Texel breed as a sire is a result of the added value Texels brought to their progeny. It is well known that Texel sired lambs are in demand across GB, both as prime lambs and as breeding replacements, with Texel sired lambs earning up to 80p/kg premiums in live markets.

The survey also revealed 2.6% of the national flock to be purebred Texel and 15% of crossbred ewes were found to be Texel sired. Overall, the breed and its crosses represented 12% of all ewes in the GB.

Kiwikit **ROXAN**

A close-up photograph of two white sheep with thick, curly wool, standing in a grassy field. They are both looking towards the right side of the frame. The sheep in the foreground is slightly behind the one in the background, creating a sense of depth.

BETTER BREEDING

For two decades, our animal DNA tests have enhanced selection, breeding and marketing decisions. Today, Neogen® is a world leader in genomic solutions and services.

Our customers can choose solutions from our extensive testing portfolio to make profitable choices about their animals. Our many services include:

- Testing such as Scrapie
- DNA screening for parentage, commercial traits, genetic recessives and causative mutations
- Genotyping to determine genetic merit & genomic breeding values

**Contact us today, for more information on our
genomic solutions for sheep, beef and dairy**
