CONDITIONS OF SALE

All sheep will be sold under the Auspices of the Texel Sheep Society and the Conditions of sale relevant to individual sales as shown below. These can be viewed at [texel.uk/societyrules](https://www.texel.uk/societyrules)

Auctioneers also display copies of the Conditions of sale within the auction house.

DISCLAIMER

The pedigree, performance, genomic information stored by the Society in the iTexel database and published on society pedigree certificates, reports and general publications is as supplied by, or on behalf of the breeder. The responsibility for the accuracy of the information therefore rests solely with the breeder and not with the British Texel Sheep Society Ltd (BTSS).

Health information and footnotes that are stored in iTexel and published in sales catalogues produced by the society, is supplied by or on behalf of the vendor. The responsibility for the accuracy of the information therefore rests solely with the vendor and not with the British Texel Sheep Society Ltd (BTSS).

Performance data and breeding values change over time as new data becomes available.

Whilst every effort is made to ensure accuracy of the information contained in society reports and publications, no responsibility can be accepted by the Society for any errors or any reliance on the use of information. No warranty is given in respect thereof by the BTSS and, to the maximum extent permitted by law, the BTSS have no liability for any loss, damage or injury howsoever caused (including that caused by negligence) or suffered directly or indirectly in relation to information and opinions contained or omitted from BTSS publications.

AUCTION MART RULES FOR VENDORS

The Shepherd in charge must bring their respective lots forward, take them to and from the Sale Ring, attend until delivered and assist in trucking if required as the Auctioneers will be responsible only for what is delivered to the purchaser. Should the Shepherd not be in attendance at the time his lots fall to be sold, it will be passed over and taken at the end of Sale.

All Stock will proceed in the order of the Catalogue and all lots not previously entered will be sold only when the list is finished.

All purchases to be settled for and taken delivery of on the Day of Sale.

No stock can be removed without a Pass.

Purchasers should see that their Stock is correct before leaving the gates, as no deduction can be made afterwards.

AUCTION MART RULES FOR VENDORS CONTINUED

No Private Sales prior to the Stock being offered by Auction will be allowed or recognised by the Salesman.

The usual commission must be paid on consignments sold privately within this Market.

Every assistance in loading or keeping overnight, for the accommodation only of Buyers, will be arranged, as far as possible, by the Auctioneers, who will **not** be responsible for loss or damage incurred thereby.

A proof of purchase will still be needed to transfer/register a ram into your flock. This can be either a handwritten ram docket or an invoice with the complete animal number including flock code.

PLEASE NOTE

Under the current legislation you will also need an animal movement licence (ARAMS1 - 11/15) for each consignment of store sheep. Additional copies of the movement licences can be obtained from Animal Reporting and Movement Services, Tel: 0844 5730137 or from the market office.

Vendors will also be required to complete a Leek Auctions green Sheep Movement form declaring that there have been no movements of susceptible livestock onto the holding in the 6 days prior to the date of consignment to the market. These forms should travel with the sheep.

Persons attending the market are advised under the Animal Gatherings Order 2004 that if their clothing becomes contaminated with faecal matter whilst in the sheep penning and sale area they will be required to cleanse and disinfect before leaving.

IT IS THEREFORE ADVISABLE TO WEAR WATERPROOF LEGGINGS AND RUBBER BOOTS TO PROTECT YOUR OUTER CLOTHING.

Please also ensure that your vehicle and trailer are clean prior to loading your stock.

The aim of EBVs is to allow buyers to see how much of an animal's performance is due to its breeding (genetics) and how much has been influenced by the environment that they have been kept in – management, feeding, farm location, housing etc

An animal will pass on half of its genetic merit to its offspring.

e.g., if Ram A has a Scan Weight EBV of +3.33 then his progeny at scanning will be over 1.5kg heavier than average

Inbreeding within the national pedigree Texel flock

Use the Mating Predictor Tool now on iTexel

Members are encouraged to use the mating predictor on iTexel to manage levels of inbreeding within their flocks. You cannot assess ewe/ram combinations by eye. The Mating Predictor estimates the inbreeding value of the offspring from a particular pairing.

The predictor is available on your smart phone as well as desktop

To check the ram(s) you're interested in purchasing and see how they combine with your ewes:

1. Login to iTexel, click Mating Predictor
2. Choose 'New Combination' to select a Sire and Ewes
3. Click 'View Results'
4. A summary will appear with the number in brackets displaying the predicted inbreeding coefficient. A coefficient below 7 is desirable

Inbreeding can be defined as the mating of related individuals, or of individuals with shared ancestors. A balance needs to be maintained between selecting animals to optimise rates of genetic gain and minimise levels of inbreeding.

Increasing levels of inbreeding can result in inbreeding depression, where performance can suffer. It can be argued that any animal is only one mating away from being outbred.

Each animal's inbreeding coefficient value is now displayed in the sales catalogue. The lower the level of inbreeding the better; a value of 7% or below is regarded as an acceptable level of inbreeding within a breeding programme.
