Purchasers from outside the United Kingdom

Invoices will be raised in **pounds sterling**. We request that payment is made to us in pounds sterling or by cheque/bankers draft, credit/debit card. There is a 2% charge for credit card payments.

N.B no foreign currency accepted (including Euros)

Adding value to any enterprise is becoming increasingly important as changes to agricultural support payments come into effect across the UK.

And while for some adding value means new routes to market, for most it will simply mean ensuring they produce the best they can from the resources available at least cost.

Making best use of available genetics is the surest and simplest and most cost-effective way to add value to a sheep business. Of course, knowing which genetics will add value isn't always straight forward.

However, thanks to the introduction of economic indexes for the Texel breed this year, it is now even simpler to find the Texel genetics which will add most value to your business and enable you to maximise income from your flock.

As a breeder, seeking out animals with figures in the higher percentiles of the breed is the surest way to know they will improve the genetic potential of your flock in the key commercial traits. A full explanation of how to use **texelplus** data is provided further on in this catalogue.

With Texels being the number one terminal sire in the country and the sire of 17% of

the national flock the Texel breed's influence on the sheep industry is second to none.

Now is the time for breeders to ensure their flocks continue to maximise the value they offer their customers and make best use of the Society's genetic improvement service, **texelplus**, and the insight it provides.

Taking the time to research and source the best genetics available is the most important task of your sheep farming year, so it makes sense to use all of the information available in your decision-making process.

The Society is grateful to the sale's sponsors for their support of the breed and Society members.

If you are not a member of the Society, but would like to start your own pedigree flock, please visit the Society website www.texel.uk for further information and to apply to become a member.

Breeders wanting to make use of **texelplus** services should also see the Society website in the first instance.

Show & Sale Programme

ENGLISH NATIONAL SHOW & SALE - WORCESTER

Bye Law 11.6

No dressing, trimming, clipping of the fleeces of sheep will be permitted. No artificial whitening on any part of the sheep is permitted. An inspector may be present at the sale or show, they have the authority to disqualify any sheep, which in their opinion, are below a minimum standard with regard to breed type or are found to be contravening the Society Byelaws, right up to the point of sale. The decision of the inspector shall be final and failure to accept the inspector's decision will result in the entire consignment or show team being rejected.

Monday 28th August

- 09.00 - 11.30 - Arrival of sheep and inspection prior to penning. Any sheep not inspected by 11.30 will not be eligible to be shown and sold.
- 14.30 - Judging of all classes by Hywel Thomas – Cennen flock
One entry per class, per vendor and sheep may only be shown in one class (other than the Group of Three).

Class 1: Shearling Ewe

Class 2: Shearling Ram

Class 3: **texelplus** Shearling Ram

Restricted to Shearling Rams that have their Terminal & Replacement Indices published in this catalogue and are within the top 25% of the Breed benchmark for either.

Class 4: Novice Flock Ram Lamb

Only flocks founded after January 1st, 2018 are eligible to exhibit as shown on page 8.

Class 5: Open Ram Lamb

Flocks showing in class 3 (Novice flock) cannot show in this Open Ram Lamb class.

Class 6: **texelplus** Ram Lamb

Restricted to Ram Lambs that have their Terminal & Replacement Indices published in this catalogue and are within the top 25% of the Breed benchmark for either.

Class 7: Group of Three Ram Lambs bred by exhibitor (Non-Championship)

- 17.00 - Chairman's welcome and presentation of prizes will take place in the ring followed by the sale of Shearling Ewes.

Tuesday 29th August

- 09.15 - Sale of Shearling Rams followed by sale of Ram Lambs

Acknowledgements

The Texel Sheep Society acknowledges with thanks the Show Judges, Stewards, Auctioneers and Exhibitors, along with the generous support of our Sponsors.

**Register
your new
stock rams
now.**

DNA kits can be collected and returned to Society staff on the day of the sale.

Inbreeding within the national pedigree Texel flock

Use the Mating Predictor tool on iTexel

Members are encouraged to use the Mating Predictor that is available on all devices through iTexel to manage levels of inbreeding within their flocks. Ewe / ram combinations cannot be assessed by eye. The Mating Predictor estimates the inbreeding values of lambs produced from a mating of any birth notified or registered ram in iTexel and any ewe in your flock.

To check the ram(s) you're interested in purchasing and see how they combine with your ewes:

1. Log in to iTexel, click on Mating Predictor
2. Choose 'New Combination' to select a sire and ewes
3. Click on 'View Results'
4. A summary will be displayed, the number in brackets is the predicted inbreeding coefficient. A value below 7 is desirable

Inbreeding can be defined as the mating of related individuals, or of individuals with shared ancestors. A balance needs to be maintained between selecting animals to optimise rates of genetic gain and minimise levels of inbreeding.

Increasing levels of inbreeding can result in inbreeding depression, where performance can suffer; though it can be argued that any animal is only one mating away from being outbred.

The lower the level of inbreeding the better, though a threshold value of 7% has been determined to be an acceptable level of inbreeding within a breeding programme. The estimate of inbreeding is based on the relatedness of individuals in a pedigree, examples of inbreeding values for different matings are presented below.

Relationship	Inbreeding coefficient (F)
Father × daughter or mother × son	25.0 %
Brother × sister	25.0 %
Grandfather × granddaughter or grandmother × grandson	12.5 %
Half-brother × half-sister	12.5 %
Uncle × niece or aunt × nephew	12.5 %
Great-grandfather × great-granddaughter or great-grandmother × great-grandson	6.25 %
Half-uncle × niece or half-aunt × nephew	6.25 %
First cousins	6.25 %

Online transfers are now available on iTexel for all registered animals.

Use this to transfer fully registered animals into your flock (approval may be required from the vendor).

This removes the need to send a proof of purchase to the office.

Birth notified males cannot be registered or transferred until a DNA sample has been received by the Society.

Conditions Of Sale

All sheep will be sold under the Auspices of the Society and the conditions of sale relevant to individual sales as shown below. These can be viewed at www.texel.uk/societyrules

SCAN HERE

Auctioneers also display copies of the conditions of sale within the market.

Neck tags supplied by the Society must be worn by all sheep for sale prior to the inspection.

Individual animal ID numbers on ear tags must match the ID number displayed in the sales catalogue and substitute catalogue.

DISCLAIMER

The pedigree, performance, genomic information stored by the Society in the iTexel database and published on Society pedigree certificates, reports and general publications is as supplied by, or on behalf of the breeder. The responsibility for the accuracy of the information, therefore, rests solely with the breeder and not with the British Texel Sheep Society Ltd (BTSS).

Health information and footnotes that are stored in iTexel and published in sales catalogues produced by the Society, is supplied by or on behalf of the vendor. The responsibility for the accuracy of the information, therefore, rests solely with the vendor and not with the British Texel Sheep Society Ltd (BTSS).

Performance data and breeding values change over time as new data becomes available. Whilst every effort is made to ensure accuracy of the information contained in Society reports and publications, no responsibility can be accepted by the Society for any errors or any reliance on the use of information. No warranty is given in respect thereof by the BTSS and, to the maximum extent permitted by law, the BTSS have no liability for any loss, damage or injury howsoever caused (including that caused by negligence) or suffered directly or indirectly in relation to information and opinions contained or omitted from BTSS publications.

SCRAPIE MONITORING SCHEME (SMS)

This event will be operated as a 'un-segregated' sale therefore any sheep from SMS flocks will need to meet the SMS rules in regard to ARR/ARR scrapie genotype certification. Members are reminded that if they bring animals to this event which do not have the certification, they will be unable to return with them without risking their flock health status. This is the responsibility of the members.

AUCTION MART RULES FOR VENDORS

The shepherd in charge must bring their respective lots forward, take them to and from the sale ring, attend until delivered and assist in trucking if required as the auctioneers will be responsible only for what is delivered to the purchaser.

Should the shepherd not be in attendance at the time his lots fall to be sold, it will be passed over and taken at the end of sale.

All stock will proceed in the order of the catalogue and all lots not previously entered will be sold only when the list is finished.

All purchases to be settled for and taken delivery of on the day of sale.

No stock can be removed without a pass.

Purchasers should see that their stock is correct before leaving the gates, as no deduction can be made afterwards.

No private sales prior to the Stock being offered by auction will be allowed or recognised by the salesman.

The usual commission must be paid on consignments sold privately within this market.

Every assistance in loading or keeping overnight, for the accommodation only of buyers, will be arranged, as far as possible, by the auctioneers, who will not be responsible for loss or damage incurred thereby.

texelplus

adding value

The Texel Sheep Society provides enhanced data collection and performance reporting services to its membership and supports the National Terminal Sire Evaluation.

texelplus indexes have been updated, making them simpler to use and understand.

In simple terms: higher value = higher profit per lamb

The texelplus economic indexes support the breed's development with an increased focus on commercial traits and profitability. The **TERMINAL** and **REPLACEMENT INDEXES** reflect the breed's influence on industry. Both are presented as the potential extra profit per lamb born in a commercial setting, compared to the population average.

Index	Average	Top 25%	Top 10%	Top 5%	Top 1%
Terminal Expected change in profit per terminal lamb born	£4.03	£5.13	£6.12	£6.71	£7.81
Replacement Expected change in profit per replacement lamb born	£4.23	£5.37	£6.40	£7.01	£8.17

The **TERMINAL INDEX** supports increased profitability through improving prime lambs and is weighted strongly for meat production. The **REPLACEMENT INDEX** includes additional maternal traits to optimise production of female replacements.

Commercial producers solely producing prime lambs should use the **TERMINAL INDEX** to inform their selection; however, those retaining female replacements should use the **REPLACEMENT INDEX**.

Sub-indexes underpin the indexes to provide more information on the relative values of growth, carcass quality, reproduction, and adult size.

An example

High ranking rams deliver over £6.00 per lamb more than lower-ranking rams. Over a ram's working lifetime, this is easily worth an extra £1,500 per ram; generated through shorter finish times and improved carcass quality.

Understanding texelplus indexes in catalogues

1 **TEXEL CAPTAIN AMERICA**

Sire: BLOSSOM TREE SUPERSTAR ABC1101111(1) by DAYDREAM PICASSO
 Dam: TXL1500289(2) by PLUMDALE VICTORY XYZ1400893(2)

	Growth	Adult Size	Repro.	Carcass	Index	Index Acc.	Ranking
Terminal	£5.44	N/A	£-0.01	£0.88	£6.31	86%	TOP 5%
Replacement	£7.21	£-1.22	£0.84	£1.16	£8.00	85%	TOP 1%

TXX1900123(2)

Born: 09/02/2019
 Inbreeding coefficient: 6.5

Trait weighting

Different emphases are given to individual traits between the terminal and replacement indexes. This results in different sub-index values.

Reproduction sub-index

The commercial benefit of lambing ease, litter size and maternal ability. Promotes optimum litter sizes and better mothers.

Adult size sub-index

The benefit of mature size as a replacement ewe. Promotes smaller animals as they require less maintenance.

Growth sub-index

Captures the benefit from growth using eight-week weight and scan weight information. Faster growth is more advantageous.

Carcass sub-index

The value of muscle and fat weight in the carcass. Encourages muscle growth with fat cover.

Accuracy

A measure of accuracy of the index. The higher the number the better.

Index values

The sum of the sub-index values and potential profit per lamb born for terminal and replacement production.

Ranking

Where the animal ranks compared to the current average animal.

Further information on texelplus services and help on understanding breeding values and indexes is available at <https://texel.uk/texelplus>

Commercial ram buyers will notice changes to the way performance data for Texel rams is displayed when they buy rams this season.

To help commercial buyers make the best purchasing decisions they can, the Texel Sheep Society has introduced two new economic indexes under its genetic improvement service, texelplus.

These changes make the indexes to use and understand and give them an increased focus on commercial traits and profitability.

As a result, there are now two indexes for the Texel breed. A terminal index and a replacement index.

These two new indexes will enable commercial producers to select animals for terminal production and breeding replacements.

Both indexes will be presented as the potential profit per lamb born in a commercial setting, compared to using the average animal born in 2010. In simple terms, the higher the value, the better performance of the animal.

To enter visit www.texel.uk/competition or scan here

A close-up photograph of two white sheep with thick, curly wool, standing in a grassy field. They are both looking towards the right side of the frame. The sheep in the foreground is slightly behind the one in the background, creating a sense of depth.

BETTER BREEDING

For two decades, our animal DNA tests have enhanced selection, breeding and marketing decisions. Today, Neogen® is a world leader in genomic solutions and services.

Our customers can choose solutions from our extensive testing portfolio to make profitable choices about their animals. Our many services include:

- Testing such as Scrapie
- DNA screening for parentage, commercial traits, genetic recessives and causative mutations
- Genotyping to determine genetic merit & genomic breeding values
