## CONDITIONS OF SALE

All sheep will be sold under the Auspices of the Texel Sheep Society and the Conditions of sale relevant to individual sales as shown below. These can be viewed at [www.texel.co.uk/societyrules](http://www.texel.co.uk/societyrules)  
Auctioneers also display copies of the Conditions of sale within the auction house.

### DISCLAIMER

The pedigree, performance, genomic information stored by the Society in the iTexel database and published on society pedigree certificates, reports and general publications is as supplied by, or on behalf of the breeder. The responsibility for the accuracy of the information therefore rests solely with the breeder and not with the British Texel Sheep Society Ltd (BTSS).

Health information and footnotes that are stored in iTexel and published in sales catalogues produced by the society, is supplied by or on behalf of the vendor. The responsibility for the accuracy of the information therefore rests solely with the vendor and not with the British Texel Sheep Society Ltd (BTSS).

Performance data and breeding values change over time as new data becomes available.

Whilst every effort is made to ensure accuracy of the information contained in society reports and publications, no responsibility can be accepted by the Society for any errors or any reliance on the use of information. No warranty is given in respect thereof by the BTSS and, to the maximum extent permitted by law, the BTSS have no liability for any loss, damage or injury howsoever caused (including that caused by negligence) or suffered directly or indirectly in relation to information and opinions contained or omitted from BTSS publications.

## The Texel Sheep Society provides performance recording services directly to its membership and continues to support the National Terminal Sire Evaluation

texelplus indexes have been updated, making them simpler to use and understand.

**In simple terms: higher value = higher profit per lamb**

The texelplus economic indexes support the breed's development with an increased focus on commercial traits and profitability. The **TERMINAL** and **REPLACEMENT** INDEXES reflect the breed's influence on industry. Both are presented as the potential extra profit per lamb born in a commercial setting, compared to the population average.

Index	Average	Top 25%	Top 10%	Top 5%	Top 1%
<b>Terminal</b>					
Expected change in profit per terminal lamb born	£4.03	£5.13	£6.12	£6.71	£7.81
<b>Replacement</b>					
Expected change in profit per replacement lamb born	£4.23	£5.37	£6.40	£7.01	£8.17

The **TERMINAL INDEX** supports increased profitability through improving prime lambs and is weighted strongly for meat production. The **REPLACEMENT INDEX** includes additional maternal traits to optimise production of female replacements.

Commercial producers solely producing prime lambs should use the **TERMINAL INDEX** to inform their selection; however, those retaining female replacements should use the **REPLACEMENT INDEX**.

Sub-indexes underpin the indexes to provide more information on the relative values of growth, carcass quality, reproduction, and adult size.

### An example

*High ranking rams deliver over £6.00 per lamb more than lower-ranking rams. Over a ram's working lifetime, this is easily worth an extra £1,500 per ram; generated through shorter finish times and improved carcass quality.*

## Trait weighting

Different emphases are given to individual traits between the terminal and replacement indexes. This results in different sub-index values.

## Reproduction sub-index

The commercial benefit of lambing ease, litter size and maternal ability. Promotes optimum litter sizes and better mothers.

## Adult size sub-index

The benefit of mature size as a replacement ewe. Promotes smaller animals as they require less maintenance.

## Growth sub-index

Captures the benefit from growth using eight-week weight and scan weight information. Faster growth is more advantageous.

## Carcass sub-index

The value of muscle and fat weight in the carcass. Encourages muscle growth with fat cover.

## Accuracy

A measure of accuracy of the index. The higher the number the better.

## Index values

The sum of the sub-index values and potential profit per lamb born for terminal and replacement production.

## Ranking

Where the animal ranks compared to the current average animal.

## PART DISPERSAL SALE OF THE CRAIGHEAD FLOCK

### (On behalf of Messrs J Cullen)

The Craighead flock of Texels was founded in 1978 with the purchase of a Ewe Lamb from the Prevost flock in France. Further gimmers have been purchased in over the years from Milnbank, Turin and Ettrick.

We have enjoyed success in both the show and sales rings over the years with sheep regularly receiving prizes at the Royal Highland Show being Reserve Champion twice. In the sale ring, gimmers, tup lambs and ewe lambs have been sold to top flocks both at National and Club Sales. Tup lambs have sold to 50,000gns for Craighead Hercules, 27,000gns Craighead Yankee, 26,000gns Craighead Dynamite, 21,000gns Craighead Masterpiece and 15,000gns Craighead Crackerjack. Females have sold to a top of 13,000gns and 5,500gns four times at the Select Seven Sale. Notable sires used over the years include, Parkhouse Value, Ettrick Glenmorangie, Hartside All Star, Fordafourie Amalret and Uskvale Crackerjack.

Our entire Adult Portions of the flock is on offer here today and the oldest of the ewe lambs, with the intention of selling the rest of the ewe lambs next year. We would like to thank everyone who has supported us over the years and wish all prospective buyers the very best of luck with their purchasers.

All stock will be Insured for 3 months at the fall of the hammer.

## FINAL DISPERSAL SALE OF THE CRAILLOCH FLOCK

### (On behalf of Messrs A & H McColm)

#### FOREWARD

After 34 years, the time has come to disperse the Craillloch flock.

I have had many successes over the years, the highlights being Craillloch Galaxy who sired the 50,000gn lamb for Cambwell; and in 2014 receiving Reserve Champion in the Texel Society's 40<sup>th</sup> anniversary National flock competition.

More importantly, I have enjoyed the camaraderie and banter within the Texel world and made many good friends. Thank you to everyone for their support and I hope the females go on and do well in their new homes.

**Angus McColm**

## PART THREE REDUCTION SALE OF THE RUSHA FLOCK

### (On behalf of Messrs JW Gibb & Son)

Welcome to Part Three of the Rusha Disperal.

We were overwhelmed by the response to our sales over the past two years, and would like to take this opportunity to thank everyone for their support - buyers, helpers, and market staff alike.

The Rusha flock was established in 1976 with a single ewe lamb purchased in the French importation. Successes at Royal Highland Show include Breed Champion in 1986, Fleece Champion in 1988 and 1989 and the Carcase Champion in 1997.

We started off breeding Ram Lambs for sale, however since 1997 we changed to breeding to sell Shearlings, which allowed us to lamb later, and doesn't require us to push feeding etc, resulting in sheep that go on and do well - with tup buyers returning year after year. A practice we have used with our Gimmers, what you see is what you get.

In the past year, we have sold 20 cast ewes to a top of £280, averaging over £200.

Gimmers are all on the Heptavac P Scheme and will all be insured with NFU Mutual Insurance at the fall of the hammer for 500gns and over.

Once again, we would like to thank everyone who has helped to get us to this point today and wish everyone the best of luck with their purchases going forward.

***George, Mary & Nicola Gibb***

***Rusha Texels***

## FINAL DISPERSAL SALE OF THE GREENBANK FLOCK (On behalf of Mr A Struthers)

The Greenbank flock was established 41 years ago with the purchase of 5 Ewe Lambs. The intent was to produce Ram Lambs for use on the Commercial Sheep then sell them on as Shearling Rams, which were mainly sold at Lanark and Carlisle for the first 20 years then mainly Carlisle for the past 20 years – averaging £740 last year and £820 the previous year.

The big highlight for me was winning the Female Championship at the Scottish National Show & Sale at Lanark.

Stock Tups were purchased annually at mainly Lanark, but also at Carlisle – traits being skin and carcase.

The flock is being sold due to commercial sheep being mainly hill types and retirement age is here.

All the best with your purchases.

## FINAL DISPERSAL SALE OF THE WESTWOODLANE FLOCK

### (On behalf of Mrs C A Toy)

The Westwoodlane flock began in 2010 when I purchased two Ettrick in-lamb gimmers at the Select Seven Sale . Over the years, I have slowly added gimmers from Watchknowe, Teiglum, Strawfrank, Grougfoot, Camwell, Tima and Boghouse to develop a solid flock of well bred sheep.

Along the way Jimmy Warnock acted as my mentor, with Kenny O'Connor helping me with Show and sale preparation. Thanks to their guidance, I went from being a complete novice to winning the Texel Championship at Abington Show in 2019.

Last year due to ill health, I sold my breeding ewes . This year's entries are my remaining Texels, last year's lambs, that I held onto to let them mature naturely, before selling.

I have enjoyed being part of the Texel Community, making lots of friends along the way. Thank you all for being so patient and generous with your advice and guidance. This year my health is much improved, so my bucket list awaits!

# HAVE YOU GOT THE RIGHT BALANCE FOR TUPPING?

Heavy rainfall causes trace elements to be leached out of the soil

Increased fertiliser use can reduce the availability of trace elements

Rapidly growing grass cannot take up trace elements efficiently

Pro-longed dry periods decrease the availability of trace elements for plants

**IODINE** - Optimises metabolism and lamb vitality

**SELENIUM** - Optimises fertility

**COBALT** - Optimises appetite and weight gain

**COPPER** - Optimises growth and fertility

USE THE AGRIMIN ADVANTAGE TO HELP YOU  
GET THE BALANCE RIGHT

## AGRIMIN'S 24•7 SMARTRACE® SHEEP BOLUSES

Support conception rates and embryo survival

Optimise lambing percentages

Maintain ewe health and condition through winter

Provide consistent, guaranteed supply of  
trace elements for over 180 days  
for sheep over 40 kg liveweight

\*COPPER is available in  
the SMARTRACE® PLUS  
version. This version is  
not suitable for breeds  
susceptible to copper toxicity
