SPRINGHILL TEXELS

Springhill Texels was established with the purchase of 3 select ewe lambs with the aim of producing top quality tups for the commercial shepherd. When selecting breeding tups for our pedigree ewes the commercial farmer is very much to the fore of our mind. Our main target hasn't changed from those early days, producing top quality shearling tups and ram lambs for the pedigree and commercial breeders.

Much success has been obtained both selling and showing sheep over the 40 years breeding Texels.

This dispersal of the female section includes mature ewes, shearling ewes and empty ewe lambs bred from the top sires within the breed. Mated to the correct sires we are sure they should produce suitable progeny for both selling and showing.

Springhill females have all been vaccinated with Heptavac P, Enzovac and Toxovac.

Wishing you many years of success with your investment in Springhill females.
