adding value

The Texel Sheep Society provides enhanced data collection and performance reporting services to its membership and supports the National Terminal Sire Evaluation.

texelplus indexes have been updated, making them simpler to use and understand.

**In simple terms: higher value = higher profit per lamb**

The texelplus economic indexes support the breed's development with an increased focus on commercial traits and profitability. The **TERMINAL** and **REPLACEMENT INDEXES** reflect the breed's influence on industry. Both are presented as the potential extra profit per lamb born in a commercial setting, compared to the population average.

Index	Average	Top 25%	Top 10%	Top 5%	Top 1%
<b>Terminal</b> Expected change in profit per terminal lamb born	£4.03	£5.13	£6.12	£6.71	£7.81
<b>Replacement</b> Expected change in profit per replacement lamb born	£4.23	£5.37	£6.40	£7.01	£8.17

The **TERMINAL INDEX** supports increased profitability through improving prime lambs and is weighted strongly for meat production. The **REPLACEMENT INDEX** includes additional maternal traits to optimise production of female replacements.

Commercial producers solely producing prime lambs should use the **TERMINAL INDEX** to inform their selection; however, those retaining female replacements should use the **REPLACEMENT INDEX**.

Sub-indexes underpin the indexes to provide more information on the relative values of growth, carcass quality, reproduction, and adult size.

#### ***An example***

***High ranking rams deliver over £6.00 per lamb more than lower-ranking rams. Over a ram's working lifetime, this is easily worth an extra £1,500 per ram; generated through shorter finish times and improved carcass quality.***

## Trait weighting

Different emphases are given to individual traits between the terminal and replacement indexes. This results in different sub-index values.

## Reproduction sub-index

The commercial benefit of lambing ease, litter size and maternal ability. Promotes optimum litter sizes and better mothers.

## Adult size sub-index

The benefit of mature size as a replacement ewe. Promotes smaller animals as they require less maintenance.

## Growth sub-index

Captures the benefit from growth using eight-week weight and scan weight information. Faster growth is more advantageous.

## Carcass sub-index

The value of muscle and fat weight in the carcass. Encourages muscle growth with fat cover.

## Accuracy

A measure of accuracy of the index. The higher the number the better.

## Index values

The sum of the sub-index values and potential profit per lamb born for terminal and replacement production.

## Ranking

Where the animal ranks compared to the current average animal.

# AULDHOUSEBURN

We are delighted to have been invited to sell at Builth Babes this year, amongst some of the top flocks in Wales. We have selected ten gimmers for the sale all of which have a great story behind them, from a full sister to our Select Seven leader this year, to the last ever daughter of the famous CKC10. Gimmers we have sold previously have went on to great achievements, including breeding two sons at six figures, and we hope that today's follow on to be as successful!

All our gimmers are luckpenny insured, genotyped and in the Heptavac P scheme. For any queries before the sale ring Alan on 07809488555.

## **Seaforde Empire King**

Sire of our lead gimmer today, has made a huge impact already, breeding Auldhouseburn Fancy Pants which is one of this year's sires of the year.

## AULDHOUEBURN SERVICE SIRES

**THE BRAND OF QUALITY**

# THORNBURY

We are delighted to be part of the Builth Babes sale this year would like to thank the fellow vendors for inviting us.

Thornbury texels was established in 2017, with the purchase of top females from flocks such as Plasucha, Knap, Rhaeadr, Auldhouseburn. We strive to produce structurally sound, easy fleshing sheep with carcase, skin and style.

2023 has been a good year in the show and sale ring, with breed champion once and reserve breed champion three times. We are retaining just one homebred gimmer this year, so this is a chance to buy stock gimmers straight from the heart of the flock.

All gimmers offered were clean shorn on 21<sup>st</sup> April. All are on Hep p+ system, Toxovac'd and Bolused. All sheep are insured at the fall of the hammer.

We wish everyone the best of luck with their purchases and hope they do well for you.

Anyone unavailable to make the sale is more than welcome to come view beforehand.

## **Auldhouseburn Esprit**

Our main sire of the gimmers. Purchased for 10k Lanark 2022. ET brother topped the sale at 100k. He sired all our 11 shearling rams to avg just shy of 1000gns this year. Females sold to 1300x2.

# DUHONW

We are based only 5 miles from Builth Wells. We are surrounded by the Eppynt Military range. Our Farmhouse sits at 1050ft and our ground runs from 950ft to 1500ft above sea level.

We run 70 Texel Ewes. We aim to turn our rams out as Yearlings. We run the Texel flock as commercial as possible. We believe it's an important trait of the Texel to be able to hold flesh off grass. We don't creep feed the lambs, so we can select the ewes that milk the best. We do target feed concentrates to the sale sheep 6 weeks prior the sale. We started off our Texel Flock in 2010 by purchasing 12 ewes. However, we have only bred up from 4 as they had the traits we desired. The stock sires we have used that have had the most influence on our breeding have been: Hull House Texas Jack, Meinspride Usain, Whiteheart A lister, Gangour Awesome, Claybury Export and Wilodge Exfactor.

We are pleased to of been invited to offer these gimmers today. They have been grass fed until the last 6 weeks before today. They are in the Hep P system – due a booster before lambing, MV accredited, Toxo and Enzo vaccinated, Plunge dipped start of December, Fluke and wormed in November. All the gimmers will have 3 months Luck Penny insurance if sold above 800gns.

Highlights from this year includes. 1<sup>st</sup> Prize Yearling Ram at the English National Sale selling for 9,000gns and his full brother making 12,000gns. Our 27 yearling Rams this year have averaged over 2,000gns.

# WYDDEN

The Wydden flock is delighted to have forward in-lamb gimmers again for Built. These natural produced gimmers are some of the strongest we've had for sale, mostly out of Humeston eye of the storm who is an excellent female breeder and still going strong. They have all been tupped with Hilltop Gambler purchased in Lanark who's et brothers have sold for 90k and 30k. He's massively long and very correct. Service dates will be available after scanning.

# CLANFIELD

It's a great pleasure to be asked to bring stock to the Bulth Babes sale this year.

This year has seen the flock sell ram lambs to £30k, £10k, £5k.  
All these lamb's mothers were Expression daughters.

We wish all buyers the best of luck with their purchases.
