DISCLAIMER

The pedigree, performance, genomic information stored by the Society in the iTexel database and published on society pedigree certificates, reports and general publications is as supplied by, or on behalf of the breeder. The responsibility for the accuracy of the information therefore rests solely with the breeder and not with the British Texel Sheep Society Ltd (BTSS).

Health information and footnotes that are stored in iTexel and published in sales catalogues produced by the society, is supplied by or on behalf of the vendor. The responsibility for the accuracy of the information therefore rests solely with the vendor and not with the British Texel Sheep Society Ltd (BTSS).

Performance data and breeding values change over time as new data becomes available.

Whilst every effort is made to ensure accuracy of the information contained in society reports and publications, no responsibility can be accepted by the Society for any errors or any reliance on the use of information. No warranty is given in respect thereof by the BTSS and, to the maximum extent permitted by law, the BTSS have no liability for any loss, damage or injury howsoever caused (including that caused by negligence) or suffered directly or indirectly in relation to information and opinions contained or omitted from BTSS publications.

The Texel Sheep Society provides enhanced data collection and performance reporting services to its membership and supports the National Terminal Sire Evaluation.

texelplus indexes have been updated, making them simpler to use and understand.

In simple terms: higher value = higher profit per lamb

The texelplus economic indexes support the breed's development with an increased focus on commercial traits and profitability. The **TERMINAL** and **REPLACEMENT INDEXES** reflect the breed's influence on industry. Both are presented as the potential extra profit per lamb born in a commercial setting, compared to the population average.

Index	Average	Top 25%	Top 10%	Top 5%	Top 1%
Terminal Expected change in profit per terminal lamb born	£4.03	£5.13	£6.12	£6.71	£7.81
Replacement Expected change in profit per replacement lamb born	£4.23	£5.37	£6.40	£7.01	£8.17

The **TERMINAL INDEX** supports increased profitability through improving prime lambs and is weighted strongly for meat production. The **REPLACEMENT INDEX** includes additional maternal traits to optimise production of female replacements.

Commercial producers solely producing prime lambs should use the **TERMINAL INDEX** to inform their selection; however, those retaining female replacements should use the **REPLACEMENT INDEX**.

Sub-indexes underpin the indexes to provide more information on the relative values of growth, carcass quality, reproduction, and adult size.

An example

High ranking rams deliver over £6.00 per lamb more than lower-ranking rams. Over a ram's working lifetime, this is easily worth an extra £1,500 per ram; generated through shorter finish times and improved carcass quality.

LINTALEE DISPERSAL

FOREWORD

My wife and I decided at the end of 2022 that 2024 would be our final year. It has been great having Texel Sheep and as I became a breeder by accident even more so. I took early retirement from a major oil company and with badges worn on the F1 Ferrari cars, it was very appropriate to end up with Texels as they are also High Performers. In Cumbria we had approx. 50 acres and rather than just grass letting I decided to have sheep, Swaledale Mules, and a local farmer loaned me a Texel tup. The next year he suggested I purchased a pedigree in lamb Texel ewe being sold locally. I ended up buying two twins and a single who both had gimmers. The Society helped me to identify them and I became a Texel breeder (Marton House Flock) with the Mules being MV accredited as well. In the 90's I joined the forerunner of iTexel and as a Chartered Engineer I have always promoted performance recording as +/-95% of all Texels go to produce prime lambs with the figures giving a good idea of what the offspring might be for the butchers. My comparison is, what is under the bonnet, a Ferrari engine, or an elastic band, but they MUST look like Texels and perform in the ring.

We moved to the Borders in very early 2000 to increase the flock size (Grey Peel Flock) with more land but while doing that was hit by Foot and Mouth in Cumbria 1/4/2001 and lost the highest priced in lamb gimmer I had purchased at the Millenium sale. The move helped produce increased numbers & quality and with the help of Charles Scott, who was a good friend to me, as was Gordon Gray, I had the luck to sell Grey Peel Rambo at Kelso for at the time the highest Kelso price. I also purchased Knock Papoose which Gordon wanted to buy a share from me, which surprise, surprise I willingly accepted. Papoose was a demonstration of how high prices do not always mean great animals as on the same day there was one sold for an extremely large amount who did not produce the offspring.

2010 is when I had my first of many hip operations and my involvement with the sheep started to diminish. I had a dispersal sale and lost the Grey Peel prefix. However, I missed having some Texels and started to buy some in lamb gimmers and with the great help of June Scott, who has looked after my sheep along with her Wallace Flock, I managed to continue with a smaller flock (Lintalee Flock). This became even more important as the number of left hips that were put in increased dramatically followed by a right artificial knee op. that can't be said to have been a great success!

All my sheep today are good honest sheep, some with good performance figures.

Maurice Hardy-Bishop

Notes

All animals are on Hept-P system. The ewes and gimmers including geld will need to have a pre-lambing injection.

All the ewes have been naturally served.

All animals are performance recorded.

David Gray scanned the ewes on 6/12/23.

Notes

All animals are on Hept-P system. The ewes and gimmers including geld will need to have a pre-lambing injection.

All the ewes have been naturally served.

All animals are performance recorded.

David Gray scanned the ewes on 6/12/23.

TEXEL SHEARLING EWES
