All sheep entries should clearly show whether the animal is single, twin, triplet, quad, etc. or ET and this information to be clearly shown in the sale catalogue.

Adult sheep entered at Shows and Sales under the auspices of the Texel Sheep Society must be bare clipped after 1st April each year.

Lot numbers will be posted out to vendors and **MUST be round the animals neck** prior to the animal going through the veterinary inspection.

All substitute Lots **MUST** be submitted on itexel no later than **12 noon on Wednesday 3rd January 2024.**

The auction mart will be open between 3pm - 6pm on Friday 5th January 2024, should you wish to go and set your pen(s) up and bring your animals in, or set up ready for your animals to enter on the Saturday morning. Any vendors intending to bring their animals on the Friday please let the auction mart know.

All sheep will be subject to a club inspection. Any animal or group of animals, which do not reach the club standard, will not be eligible for sale. The decision of the inspectors will be final and any animal or group of animals failed will be removed from the sale and forfeit the entry fee and failure to accept the inspectors decision will result in the entire consignment being rejected. When an animal is referred to a Veterinary Surgeon, his decision will be final.

No dressing, artificial whitening, clipping or excessive use of dips on the fleeces of sheep will be permitted. An inspector may be present at the sale with the authority to disqualify any sheep, which in his opinion, are below a minimum standard with regards to breed type or are found to be contravening the Society Bye-laws, right up to the point of sale.

The Society requires that all pedigree Texel sheep carry two different forms of identification, each clearly identifying the Society flock book number for that animal. Pedigree Texels can be identified with a tag plus a tattoo or two separate tags. Any animal with indistinct identification or carrying one form of identification will be rejected unless the Society has been

notified in advance of the inspection and a dispensation certificate accompanies the animal to the point of inspection.

The Texel Sheep Society provides enhanced data collection and performance reporting services to its membership and supports the National Terminal Sire Evaluation.

texelplus indexes have been updated, making them simpler to use and understand.

In simple terms: **higher value = higher profit per lamb**

The texelplus economic indexes support the breed's development with an increased focus on commercial traits and profitability. The **TERMINAL** and **REPLACEMENT INDEXES** reflect the breed's influence on industry. Both are presented as the potential extra profit per lamb born in a commercial setting, compared to the population average.

| Index | Average | Top 25% | Top 10% | Top 5% | Top 1% |
|---|---------|---------|---------|--------|--------|
| Terminal Expected change in profit per terminal lamb born | £4.03 | £5.13 | £6.12 | £6.71 | £7.81 |
| Replacement Expected change in profit per replacement lamb born | £4.23 | £5.37 | £6.40 | £7.01 | £8.17 |

The **TERMINAL INDEX** supports increased profitability through improving prime lambs and is weighted strongly for meat production. The **REPLACEMENT INDEX** includes additional maternal traits to optimise production of female replacements.

Commercial producers solely producing prime lambs should use the **TERMINAL INDEX** to inform their selection; however, those retaining female replacements should use the **REPLACEMENT INDEX**.

Sub-indexes underpin the indexes to provide more information on the relative values of growth, carcass quality, reproduction, and adult size.

An example

High ranking rams deliver over £6.00 per lamb more than lower-ranking rams. Over a ram's working lifetime, this is easily worth an extra £1,500 per ram; generated through shorter finish times and improved carcass quality.
