Best Pen of Shearling Rams and Best Pen of Ram Lambs

Judge: Jeff and Reg Evans, Green Farm, Pant-y-dwr.

There is no requirement for vendors to enter the classes, all eligible pens will be judged accordingly.

Judging will take place on Sunday Afternoon.

Best Pen of Shearling Rams <i>must consist of <u>eight or over</u> shearling rams</i>	Best Pen of Ram Lambs <i>must consist of <u>five or over</u> ram lambs.</i>

texelplus Shield awarded for the best pen average of performance recorded shearling rams, post event

CONDITIONS OF SALE

All sheep will be sold under the Auspices of the Texel Sheep Society and the Conditions of sale relevant to individual sales. These can be viewed at texel.uk/societyrules

Auctioneers also display copies of the Conditions of sale within the auction house.

DISCLAIMER

The pedigree, performance, genomic information stored by the Society in the iTexel database and published on society pedigree certificates, reports and general publications is as supplied by, or on behalf of the breeder. The responsibility for the accuracy of the information therefore rests solely with the breeder and not with the British Texel Sheep Society Ltd (BTSS).

Health information and footnotes that are stored in iTexel and published in sales catalogues produced by the society, is supplied by or on behalf of the vendor. The responsibility for the accuracy of the information therefore rests solely with the vendor and not with the British Texel Sheep Society Ltd (BTSS).

Performance data and breeding values change over time as new data becomes available.

Whilst every effort is made to ensure accuracy of the information contained in society reports and publications, no responsibility can be accepted by the Society for any errors or any reliance on the use of information. No warranty is given in respect thereof by the BTSS and, to the maximum extent permitted by law, the BTSS have no liability for any loss, damage or injury howsoever caused (including that caused by negligence) or suffered directly or indirectly in relation to information and opinions contained or omitted from BTSS publications.

Members are reminded of Bye Law 11.6

No dressing, trimming, clipping of the fleeces, or eye lashes of sheep will be permitted. No artificial whitening on any part of the sheep is permitted. An inspector may be present at the sale or show, they have the authority to disqualify any sheep, which in their opinion, are below a minimum standard with regard to breed type or are found to be contravening the Society Byelaws, right up to the point of sale. The decision of the inspector shall be final and failure to accept the inspector's decision will result in the entire consignment being rejected.

SCRAPIE MONITORING SCHEME (SMS)

This event will be operated as a 'un-segregated' sale therefore any sheep from SMS flocks will need to meet the SMS rules in regard to ARR/ARR scrapie genotype certification.

Members are reminded that if they bring animals to this event which do not have the certification, they will be unable to return with them without risking their flock health status. This is the responsibility of the members.

SALE COMMISSION 6% (NSA 5% and Texel Sheep Society 1%)

ALL SHEEP MUST BE ACCOMPANIED BY AN MV ACCREDITED CERTIFICATE

BLUETONGUE VIRUS (BTV) ANIMAL MOVEMENT GUIDANCE

While Bluetongue Virus (BTV) movement regulations have been updated by UK and devolved governments, circumstances can change rapidly. Please monitor Society and government updates regularly for up to date guidance.

The information below is correct as of 03/09/2025 and is intended to help members navigate the complex and evolving rules issued by UK and devolved governments in relation to autumn sales.

Members are strongly advised to read all official government information carefully and to consult with their own vet to ensure they receive accurate and up-to-date advice.

Background

- English BTV3 restriction zone (RZ) was expanded to cover all of England on 1st July
- Wales and Scotland remain Free Area (FA) from 1st July, no indication that either will join the RZ without disease incursion.
- NI remains an FA.
- Pre-movement tests are valid for seven days from the date the bloods were collected.
- Vaccinated animals are not treated any differently in regard to eligibility for movement up until mid-August for Welsh stock and mid-September for stock outside Wales.
- From 21st September 2025 stock from outside Wales which have been vaccinated can attend appropriately licensed sales in Wales without the need for pre-movement testing. There is no need for animals from the BTV Free Area to be vaccinated. All stock at these sales can move freely to English and Welsh holdings. Vaccinated animals from the RZ can move from farms in the RZ to farms in Wales without any restriction.
- From 21st September breeding males from the restricted zone can enter Scotland either with a valid pre-movement test or must be isolated and have a valid post-movement test prior to joining the resident flock. Again this is without the need for vaccination.
- Vaccinated animals should not be tested within seven days of vaccination, to help reduce risk of false positives being identified.
- All veterinary costs and laboratory tests are at the owner's expense.
- Test results must be provided by the national reference laboratory (or official designated lab) with negative PCR results.

Website

The Texel Sheep Society provides data collection and performance reporting services to its membership. The National British Texel sheep evaluation combines pedigree and genomic data to provide Indexes that are simple to use and understand.

Higher value = more profit per lamb

texelplus economic indexes support the breed's development with a focus on commercial traits and profitability. Over the last five years there has been a 15% increase in the rate of genetic gain in the terminal index, providing increased benefits to commercial producers choosing Texel.

Index	Average	Top 25%	Top 10%	Top 5%	Top 1%
Terminal Expected change in profit per terminal lamb born	£4.12	£5.38	£6.51	£7.19	£8.46
Replacement Expected change in profit per replacement lamb born	£4.80	£6.19	£7.46	£8.21	£9.62

The **TERMINAL** and **REPLACEMENT INDEXES** reflect the breed's influence on industry, with both presented as the potential extra profit per commercial lamb born, over the population baseline. The **TERMINAL INDEX** is weighted for meat production and supports increased profitability through improving prime lambs. The **REPLACEMENT INDEX** includes additional maternal traits to optimise production of female replacements.

Commercial producers solely producing prime lambs should use the **TERMINAL INDEX** to inform their selection; however, those retaining female replacements should use the **REPLACEMENT INDEX**.

Sub-indexes underpin the indexes to provide more information on the relative values and ranking of animals for growth, fat and muscle weight, and reproduction.

An example

High ranking rams can deliver over £3.00 more per lamb than lower-ranking rams. Over a ram's working lifetime, this is easily worth an extra £690 per ram; generated through shorter finish times and improved carcass quality.

Born: 27/02/2025
Inbreeding coefficient: 2.1

	Growth	Muscle weight	Fat weight	Repro.	Index	Index Acc.	Ranking
Terminal	TOP 25%	TOP 1%	TOP 5%	AVG+	£6.31	87%	TOP 5%
Replacement	TOP 25%	TOP 1%	TOP 5%	TOP 5%	£8.24	85%	TOP 1%

2 TEXEL IMMENSE

Scrapie genotype: ARR/ARR Microphthalmia genotype: Resistant (G/G)
Sire: BLOSSOM TREE HIGH STREET ABC2401111(1) by DAYDREAM PICASSO
Dam: TXX2200007(2) by PLUMDALE DESIRABLE XYZ2000893(2)

Born: 25/02/2025
Inbreeding coefficient: 0.2

	Growth	Muscle weight	Fat weight	Repro.	Index	Index Acc.	Ranking
Terminal	TOP 1%	TOP 25%	AVG+	TOP 5%	£8.82	69%	TOP 1%
Replacement	TOP 1%	TOP 25%	AVG+	TOP 1%	£10.06	67%	TOP 1%

Trait weighting

Different emphases given to individual traits in the terminal and replacement indexes, resulting in different sub-index ranks.

AVG+ indicates above-average animals.

Growth

The benefit from growth using eight-week weight and scan weight information.

Faster growth is more advantageous.

Fat weight

Ranking for fat weight in the carcass.
Encourages fat cover.

Reproduction

The commercial benefit of lambing ease, litter size and maternal ability.
Promotes optimum litter sizes and better mothers.

Muscle weight

Ranking for muscle weight in the carcass.
Encourages muscle growth.

Accuracy

A measure of the accuracy of the index.
The higher the number the better.

Index values

The sum of the sub-index values and potential profit per lamb born.

Ranking

Where the animal ranks in the population.

Further information on texelplus services and help on understanding breeding values and indexes is available at <https://texel.uk/tixelplus/>
