MESSAGE FROM OUR MAIN SPONSOR

WELCOME TO

Rapid Project Development is proud and privileged to continue our support of the 2025 Aberdeen Christmas Classic. As a local independent steel fabrication and construction company, specializing in all types of agricultural buildings and associated works, it is a great pleasure to be involved in such an important and significant event in the agricultural calendar.

Our family business was originally founded by Paul Duxbury, joined by his sons, providing a turn-key solution for all construction projects.

The business is now headed by brothers, John-Paul and James Duxbury, who are in charge of all of the company's projects with John-Paul looking after design, planning, sales and steel fabrication and James overseeing site works, concrete and construction works.

Our aim is to provide client satisfaction and value for money, the essential requirements needed to continue the success and growth of the business.

Many farmers, customers and friends, will know of us, but for those who don't, we provide a one-stop solution for all agricultural building requirements, looking after everything and endeavouring to help with problem solving with our clients.

It also helps that our sister company RPD Scotland Ltd is involved in arable, livestock and renewables. This gives us a wealth of practical experience when it comes to advising on and providing buildings and services for our clients. The farm unit produces renewable energy which supplies electricity and heat for Rapid's fabrication facility.

Looking forward to this years Christmas Classic itself, we would like to thank ANM Group and all the entrants for their work and dedication in preparing for the event. Without this effort there would not be a Christmas Classic.

For those of you visiting, we hope you have an enjoyable time at Thainstone and we look forward to meeting and speaking with you over the two days.

John-Paul Duxbury

McKilligan Financial - Rural Family Business Accountants

We are a responsive and proactive accountancy and tax advice firm supporting farmers and rural businesses in Aberdeenshire, Morayshire and beyond.

Founded by Elaine McKilligan in 2020, and based at Cornhill near Banff in Aberdeenshire, the growing McKilligan Financial team of 13 are plain-talking accounts and tax specialists who offer honest advice.

Filing accounts and tax returns is just one aspect of what we do.

Real service, to us, looks like:

- being there at the end of the phone or on email with no extra fees so clients can ask a “quick question” with ease
- pro-actively supporting our clients to plan ahead for their tax and how they structure their business
- being a sounding board, asking the challenging questions, and having realistic conversations in everyday language
- helping businesses with the ‘big picture’ and the day-to-day of accounting so that they can be the best they can be
- being upfront with fees and offering bespoke pricing to suit the size and type of a business

And all because our mission is simple: support rural family businesses with trusted advice built on lasting relationships.

With many of our team coming from farming backgrounds, we're acutely aware of the unique challenges faced by rural enterprises. As a result, our clients tell us they feel at ease knowing we, too, live and breathe the rural life of North East Scotland.

We truly are a hands-on accounts and tax support team giving consistent, tailored advice for confident future business planning – and we're here for the big questions, the little questions, the tech support, and everything in between.

Quality Meat Scotland (QMS)

QMS is the public body responsible for promoting the UK GI labelled Scotch Beef and Scotch Lamb brands in the UK and abroad, and for promoting Scottish pork products under the Specially Selected Pork logo.

QMS also helps the Scottish red meat sector improve its sustainability, efficiency and profitability and maximise its contribution to Scotland's economy. The quality assurance schemes run by QMS cover more than 90% of livestock farmed for red meat in Scotland. They offer consumers in the UK and overseas the legal guarantee that the meat they buy has come from animals that have spent their whole lives being raised to some of the world's strictest welfare standards.

Scotland's beef, lamb and pork producers make an important contribution to the country's economic, social and environmental sustainability, contributing over £2.8 billion to the annual GDP of Scotland and supporting around 39,000 jobs (many in fragile rural areas) in the farming, agricultural supply and processing sectors.

For more information visit www.qmscotland.co.uk or follow QMS on Facebook or Twitter.

DUTCH SPOTTED

Conditions of Entry and General Information

1. **ENTRIES** – All animals entered must be fully registered and, on the Grassroots Database, with all fees paid at least 7 working days before the date of sale entry. Failing to do this will result in the animal being ineligible to be sold. All sheep must be tagged in accordance with the rules of Dutch Spotted Sheep Society and with the relevant DEFRA regulations. The vendor shall be responsible for the correctness of identity.
2. **METHOD OF SALE** – All sheep will be sold in guineas (105 pence) and in catalogue order unless alteration is announced by the auctioneer. A market commission at the mart's rate will be charged on all sheep sold, plus a further 1% sales levy, which will be paid to the DSSS. Graded animals will always be sold after all the purebred animals in MV and non MV sections.
3. **CONDITIONS OF SALE** – The sale is held subject to the Livestock Auctioneers Association Conditions of Sale and the Rules of the DSSS.
4. **UPSET PRICE** – The minimum upset price is set at 300gns (200gns for Graded females). Sheep unsold but passing inspection will be allowed into subsequent Society Sales but not on the same day.
5. **MAEDI VISNA** - All sheep from MV Accredited flocks will only be accepted into the market and penned for sale if they are accompanied by a current and correctly completed Maedi Visna Accreditation Scheme Certificate.
6. **NUMBERING** – All entries must be identified by their catalogue number by means of a neck tie or by numbers printed clearly on the animals back in paint and will be sold in catalogue order.
7. **SUBSTITUTE ENTRIES** – All substitute entries MUST BE NOTIFIED to the Registrations Secretary not less than 7 days before the sale. Substitute entries must be marked with a RED DOT ON THE SHOULDER. Substitutes are limited to 1 per vendor per section. Animals can only be substituted by another animal of same age and class. Animals not notified to the Registrations Secretary in the allotted time will be refused entry into the sale.
8. **INSPECTIONS** - All sheep will be subject to an official society veterinary inspection before the sale. Society representatives appointed by the society will assist with inspection administration. The inspector is empowered to disbar any animal which in his/her opinion does not meet the necessary standard. The decision of the inspector(s) will be final. Any animal failing inspection on structural or conformational criteria will not be allowed to be sold on the day of the sale, nor any other Society sale in the same year. Neither the Inspectors, the Society nor the Auctioneers will be liable to the owners of such animals or any other person or company for damage or any loss arising from rejection.
9. Sheep rejected from the sale must be marked with a YELLOW DOT ON THE LOIN and should be moved well away from the sale's penning area and not further exhibited for sale; no advertising, promotion or sale of such a sheep is allowed on market premises.

Any sheep withdrawn from a sale, passing inspection and gone through the ring, but unsold will be allowed to enter subsequent Society sales but will have to be presented for inspection again.

INSPECTION CRITERIA

- **Lot Number:** The lot number must correspond with the number entered in the catalogue. Animals without the correct identification will be rejected from the sale.
 - **Disease:** the animal is not suffering from any infectious disease.
 - **Mobility:** sheep should be mobile and sound with no feet and/or leg structural issues.
 - **Teeth** to be assessed whereby if any incisor teeth that are felt beyond the pad, as demonstrated by catching on fingers when running from the pad downwards, or when they are so far beyond the pad that they do not catch the finger, will be rejected.
 - **When males are being sold**, testicles should be of even size, move freely and free from abnormalities. Ram lamb's minimal scrotal circumference is 28cm and Shearling Rams minimal scrotal circumference is 33cm.
 - **When females are being sold**, the udder should be correct and free from abnormalities.
 - **Note:** Animals which do not meet animal *welfare standards* such as lame animals will be rejected from that sale, however are eligible to be entered for future sales in that year, provided they are inspected and pass inspection at that future sale.
 - Important Note: Although the animals have undergone a veterinary inspection according to the DSSS inspection criteria, it remains the responsibility of the party or parties purchasing stock at society sales to ensure they are satisfied with the quality and standard of the animals before engaging with any purchase.
 - SHOWS AT SALES: A show will not be held at a society if there are fewer than 30 purebred animals entered. Animals bred by the judge cannot be presented for judging.
 - SETTLEMENT AND CLEARING OF STOCK – Settlement in full is due immediately at the close of sale. No animal must leave the sale premises
 - without an official "pass slip" obtainable only from the Auctioneers upon settlement.
10. **EXPORT TO NORTHERN IRELAND** – As of the 1st January 2021, the rules for exporting sheep from Great Britain to Northern Ireland and the European Union have changed. – No direct export or vendor returns will be available under current animal health rules. It will be the responsibility of the purchaser and/or vendor to make necessary arrangements for the sheep going to Northern Ireland.
11. **DISCLAIMER**- the responsibility for export of sheep rests with either the purchaser or the vendor and not the Dutch Spotted Sheep Society or Auction Company accommodating the sale.
12. **FLUSHED SHEEP** – where females have been flushed, with or without, embryos being recovered before the sale must be declared in the catalogue and announced at the time of the sale. Failure to do so will result in the purchaser having the right to return the sheep – costs may occur.

CONDITIONS OF SALE

All sheep will be sold under the Auspices of the Texel Sheep Society and the Conditions of sale relevant to individual sales. These can be viewed at texel.uk/societyrules

Auctioneers also display copies of the Conditions of sale within the auction house.

DISCLAIMER

The pedigree, performance, genomic information stored by the Society in the iTexel database and published on society pedigree certificates, reports and general publications is as supplied by, or on behalf of the breeder. The responsibility for the accuracy of the information therefore rests solely with the breeder and not with the British Texel Sheep Society Ltd (BTSS).

Health information and footnotes that are stored in iTexel and published in sales catalogues produced by the society, is supplied by or on behalf of the vendor. The responsibility for the accuracy of the information therefore rests solely with the vendor and not with the British Texel Sheep Society Ltd (BTSS).

Performance data and breeding values change over time as new data becomes available.

Whilst every effort is made to ensure accuracy of the information contained in society reports and publications, no responsibility can be accepted by the Society for any errors or any reliance on the use of information. No warranty is given in respect thereof by the BTSS and, to the maximum extent permitted by law, the BTSS have no liability for any loss, damage or injury howsoever caused (including that caused by negligence) or suffered directly or indirectly in relation to information and opinions contained or omitted from BTSS publications.

The Texel Sheep Society provides data collection and performance reporting services to its membership. The National British Texel sheep evaluation combines pedigree and genomic data to provide Indexes that are simple to use and understand.

Higher value = more profit per lamb

texelplus economic indexes support the breed's development with a focus on commercial traits and profitability. Over the last five years there has been a 15% increase in the rate of genetic gain in the terminal index, providing increased benefits to commercial producers choosing Texel.

Index	Average	Top 25%	Top 10%	Top 5%	Top 1%
Terminal Expected change in profit per terminal lamb born	£4.12	£5.38	£6.51	£7.19	£8.46
Replacement Expected change in profit per replacement lamb born	£4.80	£6.19	£7.46	£8.21	£9.62

The **TERMINAL** and **REPLACEMENT INDEXES** reflect the breed's influence on industry, with both presented as the potential extra profit per commercial lamb born, over the population baseline. The **TERMINAL INDEX** is weighted for meat production and supports increased profitability through improving prime lambs. The **REPLACEMENT INDEX** includes additional maternal traits to optimise production of female replacements.

Commercial producers solely producing prime lambs should use the **TERMINAL INDEX** to inform their selection; however, those retaining female replacements should use the **REPLACEMENT INDEX**.

Sub-indexes underpin the indexes to provide more information on the relative values and ranking of animals for growth, fat and muscle weight, and reproduction.

An example

High ranking rams can deliver over £3.00 more per lamb than lower-ranking rams. Over a ram's working lifetime, this is easily worth an extra £690 per ram; generated through shorter finish times and improved carcass quality.

Trait weighting

Different emphases given to individual traits in the terminal and replacement indexes, resulting in different sub-index ranks. AVG+ indicates above-average animals.

Growth

The benefit from growth using eight-week weight and scan weight information. Faster growth is more advantageous.

Fat weight

Ranking for fat weight in the carcass. Encourages fat cover.

Reproduction

The commercial benefit of lambing ease, litter size and maternal ability. Promotes optimum litter sizes and better mothers.

Muscle weight

Ranking for muscle weight in the carcass. Encourages muscle growth.

Accuracy

A measure of the accuracy of the index. The higher the number the better.

Index values

The sum of the sub-index values and potential profit per lamb born.

Ranking

Where the animal ranks in the population.
