Northern Area Club In Lamb Sale

**Skipton
on
Saturday 13th December 2025**

**OFFICIAL AUCTIONEERS
Craven Cattle Mart**

CONDITIONS OF SALE

All sheep will be sold under the Auspices of the Texel Sheep Society and the Conditions of sale relevant to individual sales. These can be viewed at texel.uk/societyrules

Auctioneers also display copies of the Conditions of sale within the auction house.

DISCLAIMER

The pedigree, performance, genomic information stored by the Society in the iTexel database and published on society pedigree certificates, reports and general publications is as supplied by, or on behalf of the breeder. The responsibility for the accuracy of the information therefore rests solely with the breeder and not with the British Texel Sheep Society Ltd (BTSS).

Health information and footnotes that are stored in iTexel and published in sales catalogues produced by the society, is supplied by or on behalf of the vendor. The responsibility for the accuracy of the information therefore rests solely with the vendor and not with the British Texel Sheep Society Ltd (BTSS).

Performance data and breeding values change over time as new data becomes available. Whilst every effort is made to ensure accuracy of the information contained in society reports and publications, no responsibility can be accepted by the Society for any errors or any reliance on the use of information. No warranty is given in respect thereof by the BTSS and, to the maximum extent permitted by law, the BTSS have no liability for any loss, damage or injury howsoever caused (including that caused by negligence) or suffered directly or indirectly in relation to information and opinions contained or omitted from BTSS publications.

We kindly draw all customers attention to the notice below **CRAVEN CATTLE MARTS LTD (CCM) – TERMS OF TRADING**

All purchases made through CCM are due for payment in full on the day of sale and before any such purchases leave the mart or sale premises.

CCM will accept payment by Cheque (from known customers); Bank

Transfer (by prior approval) and Debit card. Payments made via a Business Credit Card that is linked to a Business Bank account will incur a 2% surcharge on all such transactions.

No purchases will be allowed to leave the mart or sale premises until invoices have been issued and relevant licensing arrangements made with the mart office.

New customers or those not having traded with CCM for a period of 2 years or more, together with agents wishing to purchase on behalf of a third party must contact CCM's mart office at least 48 hours prior to sale to complete an Account Registration Form for approval to purchase.

In all circumstances, CCM reserve the right to either contra or retain part or whole of any sale proceeds to offset against an outstanding account with the company.

Sales are conducted according to the Livestock Auctioneers Association Ltd Conditions of Sale as displayed in the mart office and are subject to these Terms of Trading.

adding value

The Texel Sheep Society provides data collection and performance reporting services to its membership.

The National British Texel sheep evaluation combines pedigree and genomic data to provide Indexes that are simple to use and understand.

Higher value = more profit per lamb

texelplus economic indexes support the breed's development with a focus on commercial traits and profitability. Over the last five years there has been a 15% increase in the rate of genetic gain in the terminal index, providing increased benefits to commercial producers choosing Texel.

Index	Average	Top 25%	Top 10%	Top 5%	Top 1%
Terminal Expected change in profit per terminal lamb born	£4.12	£5.38	£6.51	£7.19	£8.46
Replacement Expected change in profit per replacement lamb born	£4.80	£6.19	£7.46	£8.21	£9.62

The **TERMINAL** and **REPLACEMENT INDEXES** reflect the breed's influence on industry, with both presented as the potential extra profit per commercial lamb born, over the population baseline. The **TERMINAL INDEX** is weighted for meat production and supports increased profitability through improving prime lambs. The **REPLACEMENT INDEX** includes additional maternal traits to optimise production of female replacements.

Commercial producers solely producing prime lambs should use the **TERMINAL INDEX** to inform their selection; however, those retaining female replacements should use the **REPLACEMENT INDEX**.

Sub-indexes underpin the indexes to provide more information on the relative values and ranking of animals for growth, fat and muscle weight, and reproduction.

An example

High ranking rams can deliver over £3.00 more per lamb than lower-ranking rams. Over a ram's working lifetime, this is easily worth an extra £690 per ram; generated through shorter finish times and improved carcass quality.

Inbreeding coefficient: 0.2

Trait weighting

Different emphases given to individual traits in the terminal and replacement indexes, resulting in different sub-index ranks. AVG+ indicates above-average animals.

Growth

The benefit from growth using eight-week weight and scan weight information. Faster growth is more advantageous.

Fat weight
Ranking for fat weight in the carcass. Encourages fat cover.

Reproduction

The commercial benefit of lambing ease, litter size and maternal ability. Promotes optimum litter sizes and better mothers.

Muscle weight

Ranking for muscle weight in the carcass. Encourages muscle growth.

Accuracy
A measure of the accuracy of the index. The higher the number the better.

Index values
The sum of the sub-index values and potential profit per lamb born.

Ranking
Where the animal ranks in the population.

Further information on texelplus services and help on understanding breeding values and indexes is available at <https://texel.uk/texelplus/>
