UNLOCK THE GENETIC POTENTIAL OF YOUR TEXELS

Genotyping provides the confidence and information today's breeders and buyers rely on, delivering:

- + Verified pedigrees through parentage verification
- + Valuable health information (see table below)
- + More accurate performance figures, particularly in young lambs
- + Greater confidence when selecting future breeding stock
- + Faster genetic progress in commercially important traits
- + Trusted information that adds value for potential buyers

	Scrapie	Microphthalmia	Maedi Visna
Most resistant (desirable)	ARR/ARR	G/G	1,1 4,4 1,4
Genetically resistant, need careful breeding selection	ARR/AHQ ARR/ARH ARR/ARQ	C/G (Carrier)	
Little resistance, need careful breeding selection	AHQ/AHQ AHQ/ARH AHQ/ARQ ARH/ARH ARH/ARQ ARQ/ARQ		
Susceptible, can be used to breed towards more resistance			*,1 *,4 1,* 4,*
Most susceptible			2,2 3,3 2,3

ET donors (born from 2025-onwards) and males to be registered must be genotyped otherwise their progeny will not be able to be added to iTexel.

All other stock can be genotyped to provide more flock insights. DNA kits can be requested for any animal as soon as it has been added to iTexel.

Scan the QR code to learn more about the Society's genotyping

service

Remember to register your new stock rams before 1st December to benefit from the lower registration fee.

Already genotyped?

- Email registrations@texel.co.uk with your proof of purchase.
- Once confirmed, your ram will be transferred into your flock.

Not yet genotyped?

- Request a DNA kit through the DNA Kit page on iTexel.

Any animal or group of animals, which do not reach the club standard, will not be eligible for sale. **The decision of the inspectors will be final** and any animal or group of animals failed will be removed from the sale and forfeit the entry fee and failure to accept the inspector's decision will result in the entire consignment being rejected. When an animal is referred to a Veterinary Surgeon, his decision will be final.
5. No dressing, artificial whitening, clipping or excessive use of dips on the fleeces of sheep will be permitted. An inspector may be present at the sale with the authority to disqualify any sheep, which in **his opinion**, are below a minimum standard with regard to breed type or are found to be contravening the Society Bye-laws, right up to the point of sale.

One of the tags shall be an EID tag and the other a visual tag. Any animal with incorrect or indistinct identification or only carrying one tag will be rejected unless the Society has been notified in advance of the inspection and a dispensation certificate accompanies the animal to the point of inspection. Animals born prior to January 1st 2011 can be identified with a tag plus a tattoo for Society purposes. Hand written tags will not be acceptable for animals born after December 31st 2010. The decision of the inspector shall be final and failure to accept the inspector's decision will result in the entire consignment being rejected.
9. The categories of sheep offered for sale will be defined on the entry form.
10. If any animal offered for sale has had semen or embryos collected from it the number of embryos/amounts of semen in storage **must** be declared at point of sale.
11. The purchaser shall have no right to claim damages from the vendor in respect of indirect or consequential loss such as (but not limited to) loss of profit or any other loss whatsoever.

15. Once inspected, an animal must remain in the sale yard until offered for sale.
16. All sheep sold in guineas. All sheep sold at sales organised by the Society recognised Clubs will be subject to the Society levy amounting to 0.5% of the gross sale price; in addition, a levy of 0.5% will be collected by the Club and the Auctioneers Commission.
